

! Laziness!

Someone has said that it requires less mental effort to condemn than to think. The widespread mental indolence, so prevalent in society, proves this to be only too true. Rather than to go to the bottom of any given idea, to examine into its origin and meaning, most people will either condemn it altogether, or rely on some superficial or prejudicial definition of non-essentials.

Who said?

! Funny but also insulting

Anarchism urges man to think, to investigate, to analyze every proposition; but that the brain capacity of the average reader be not taxed too much, I also shall begin with a definition, and then elaborate on the latter.

Social norms?

She is going to break it down for us - so we don't tax our brains!

As opposed to natural law?

ANARCHISM:-The philosophy of a new social order based on liberty unrestricted by man-made law; the theory that all forms of government rest on violence and are therefore wrong and harmful, as well as unnecessary.

How do governments rest on violence? Military?

The new social order rests, of course, on the materialistic basis of life; but while all Anarchists agree that the main evil today is an economic one, they maintain that the solution of that evil can be brought about only through the consideration of every phase of life,-individual, as well as the collective; the internal, as well as the external phases.

So poverty is the greatest evil?
