African Review ,1896 **Hyperthematics** Marc M. Anderson,2019-08-01 Presents a new and unique method for developing principles to be applied in creating and increasing value In this innovative work Marc M Anderson presents an account of value and value creation which both defines value and introduces a method to manipulate value practically Using this new methodology Anderson first explores where value lies in experience both human and otherwise uncovering

tendencies in human action and the natural world that create and destroy value From that analysis he generates practical principles to be applied in creating value in any region or discipline of human experience at any scale including corporate organization and product design economics the sciences the arts urban and architectural design and sustainable development He tests this methodology by focusing on the organization and production of commercial corporations in particular suggesting ways to rethink and transform organization product creation and the contemporary currency system He considers the implications for the many intersections of corporate production with human life from urban planning medicine and food production to pornography weaponry and environmental engagement with corresponding suggestions for transformation toward value Throughout *Hyperthematics* examines complexity the nature of objects the inevitable future intermingling of science and ethics and assumptions driving the contemporary culture wars *The Official Report on Human Activity* kim d. hunter,2018-04-16 Jazz opera and various blues serve as the soundtrack for this collection of fairytales for grown ups of all ages *The Official Report on Human Activity* by kim d hunter which is neither official nor a report is a collection of long stories that are linked by reoccurring characters and their personal struggles in societies rife with bigotry in which media technology and capitalism have run amok These stories approach the holy trinity of gender race and class at a slant They are concerned with the process and role of writing intertwined with the roles of music and sound The four stories range from the utterly surreal a factory worker seeking recognition for his writing gives birth to a small black elephant with a mysterious message on its hide to the utterly real a nerdy black teen s summer away from home takes a turn when he encounters half white twins on the run from the police Prominently known as a Detroit poet hunter creates illusions and magic while pulling back the curtain to reveal humanity the good bad and absurd Readers will find their minds expanded and their conversations flowing after finishing *The Official Report on Human Activity* *The Official Report on Human Activity* is sure to appeal to readers of literary fiction particularly those interested in postmodernism and social justice **The Harvard Advocate** ,1917 [The Treasury of Ancient Egypt](#) Arthur E.
