Section 1983 Litigation Martin A. Schwartz, 2013

Criminal Evidence John L. Worrall, Craig Hemmens, Lisa S. Nored, 2017-01-11 Criminal Evidence An Introduction Third Edition provides comprehensive and applied coverage of the rules of evidence along with numerous case excerpts that clearly illustrate those rules Using engaging straightforward language authors John L Worrall Craig Hemmens and Lisa S Nored offer an invaluable and innovative resource for both students and instructors Concentrating on the Federal Rules of Evidence this distinctive text presents in depth yet accessible coverage of evidentiary law in fourteen succinct chapters To draw students into this complex subject the authors explain criminal evidence through a unique blend of text and case excerpts throughout these excerpts illuminate the rules in useful fascinating and often unusual examples *Supplement to Vernon's Texas Civil and Criminal Statutes* Texas, 1922

The Psychiatrist in the Courtroom Jacques M. Quen, 2013-05-13 Over the course of an illustrious career the late Bernard Diamond established himself as the preeminent forensic psychiatrist of the century *The Psychiatrist in the Courtroom* brings together in a single volume Diamond's pivotal contributions to a variety of important issues including the nature of diminished capacity the fallacy of the impartial expert the predictability of dangerousness and the unacceptability of hypnotically facilitated memory in courtroom proceedings Ably introduced and edited by Jacques M Quen M D a close colleague of Diamond's and leading historian of forensic psychiatry these writings enable experts and neophytes alike to track Diamond's evolving positions while clarifying where current legal and psychiatric opinion converge and diverge on a host of critical topics For the forensic specialist *The Psychiatrist in the Courtroom* is not only an invaluable reference work but a compassionate reminder of the clinician's obligation to protect patients in legal proceedings And in an age when clinicians are increasingly called into court the book will be no less valuable to psychoanalysts and other mental health professionals eager for an introduction to the intricacies of judicial reasoning Then too owing to Diamond's clinical acumen the book is a compelling human document With great erudition and deep compassion Diamond tackles these and other knotty questions always with an eye to clarifying the legal and clinical implications of the answers By combining superb clinical gifts with an incisive understanding of legal principle Diamond produced a seminal corpus whose relevance to discussions of therapeutic ethics and to legal debates will continue well into the next century *California.
