**Wanderers Between Two Worlds** Douglas Hale, 2005-02-28 Wanderers Between Two Worlds German Rebels in the American West 1830 1860 by Douglas Hale In the 1830s a small band of visionary university students launched an audacious but abortive rebellion against the German Confederation in an effort to achieve unity and freedom for their country Their bungled revolt was quickly crushed and the idealistic youth found themselves branded as traitors and pursued as outlaws Wanderers Between Two Worlds traces the extraordinary intertwined lives of seven of the German student revolutionaries who escaped imprisonment only by flight to the American West Leaving behind a legacy in Germany s quest for freedom that would not be fulfilled for another 150 years these urbane and educated exiles arrived in the United States in time to share in the most dramatic episodes of the age wilderness adventures on the Santa Fe and Oregon Trails the Texas Revolution against Mexico the Mexican War the California Gold Rush the mounting conflict over slavery and the inexorable thrust of American power to the Pacific The United States offered these young men a broad and uncrowded stage upon which to display their talents Gustav Koerner became a leading Illinois politician while Georg Engelmann emerged as the premier botanist of the American West Ferdinand Lindheimer was an influential spokesman

among the German settlers in Texas Adolph Wislizenus explored the Rockies and northern Mexico and led in the establishment of the St Louis scientific community Gustav Bunsen perished in the Texas Revolution while his brother Georg achieved considerable influence as a pioneer educator Theodor Engelmann published the first German newspaper in Illinois Historian Douglas Hale captures the drama and adventure of their lives in both the Old Country and the New Wanders Between Two Worlds is an engaging and accessible saga that acquaints readers with a long neglected chapter in the history of German democracy and the impact of German Americans in the development of Illinois Missouri and Texas Hale combines scrupulous attention to accuracy with a lucid and readable style that ventures beyond historical narrative to engage the reader in the personalities and experiences of the individuals involved Rockefeller and the Internationalization of Mathematics Between the Two World Wars Reinhard Siegmund-Schultze,2001-04-01 Philanthropic societies funded by the Rockefeller family were prominent in the social history of the twentieth century for their involvement in medicine and applied science This book provides the first detailed study of their relatively brief but nonetheless influential foray into the field of mathematics **Italian Mathematics Between the Two World Wars** Angelo Guerraggio,Pietro Nastasi,2006-01-20 This book describes Italian mathematics in the period between the two World Wars It analyzes the development by focusing on both the interior and the external influences Italian mathematics in that period was shaped by a colorful array of strong personalities who concentrated their efforts on a select number of fields and won international recognition and respect in an incredibly short time Consequently Italy was considered a third mathematical power after France and Germany **A Romance of Two Worlds** Marie Corelli,1896 A Romance of Two Worlds starts with a young heroine in first person telling her story of a debilitating illness that includes depression and thoughts of suicide Her doctor is unable to help her and sends her off on a holiday where she meets a mystical character by the name of Raffello Cellini a famous Italian artist Cellini offers her a strange potion which immediately puts her into a tranquil slumber in which she experiences divine visions Upon waking she craves more Later she meets her unnamed guardian angel who whisks her through infinite solar systems faster than a shooting star while human spirits fly by like gossamer silk He shares the truth of religion and the secret of human destiny but still she longs for more She comes to understand God as pure light and pure love but it is not enough that she should see and hear these things from the touch of an angel She wants to master this ability on her own and seeks a oneness with God through a series of meditative disciplines while locked away in a monastery Wikipedia **Religious Denominations of the World** Vincent L.
