Dorothy Wordsworth's Rydal Journals Nicholas Mason,Susanne Sutton,2025-04-25 Although Dorothy Wordsworth's journals have long been celebrated for their vibrant and keen eyed portraits of everyday life until now only brief excerpts have been available from her most extensive set of diaries the fifteen notebooks from 1824-35 that have come to be known as the Rydal Journals This scholarly edition of the complete contents of these journals therefore marks a watershed moment for the study of this remarkable woman and more generally the shifting literary cultural and political realities of Reform era Britain The first half of the Rydal Journals chronicles the comings and goings of a buoyant fifty something still in her physical and intellectual prime capturing her bustling social life when at home in the Lakes and her zeal for new adventures when travelling to Manchester Yorkshire the Midlands the Welsh Marches and the Isle of Man The ensuing half by contrast offers an alternately inspiring and heart breaking record of the diarist's attempts to find joy and meaning amid the sudden onset of old age and disability that followed her near fatal illness of 1829 Besides providing long overdue access to what may be the last great trove of unpublished life writing by a major English Romantic this edition surrounds the text of the journals with dozens of illustrations a wealth of explanatory footnotes and engaging introductions to the people places and events that helped define this pivotal decade of Dorothy Wordsworth's life

Journals and Notebooks, Volume 9 Søren Kierkegaard,2017-05-09 For over a century the Danish thinker Søren Kierkegaard 1813-55 has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought psychology and contemporary aesthetics especially literary theory Despite his relatively short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press edition of all of his published writings But Kierkegaard left behind nearly as much unpublished writing most of which consists of what are called his journals and notebooks Kierkegaard has long been recognized as one of history's great journal keepers but only rather small portions of his journals and notebooks are what we usually understand by the term diaries By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects philosophical religious political personal Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought We can witness the genesis of his published works to be sure but we can also see whole galaxies of concepts new insights and fragments large and small of partially or almost entirely completed but unpublished works Kierkegaard's Journals and Notebooks enables us to see the thinker in dialogue with his times and with himself Kierkegaard wrote his journals in a two column format one for his initial entries and the second for the extensive marginal comments that he added later This edition of the journals reproduces this format includes several photographs of

original manuscript pages and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced Volume 9 of this 11 volume series includes five of Kierkegaard s important NB journals Journals NB26 through NB30 which span from June 1852 to August 1854 This period was marked by Kierkegaard s increasing preoccupation with what he saw as an unbridgeable gulf in Christianity between the absolute ideal of the religion of the New Testament and the official state sanctioned culture of Christendom which embodied by the Danish People s Church Kierkegaard rejected with increasing vehemence Crucially Kierkegaard s nemesis Bishop Jakob Peter Mynster died during this period and in the months following Kierkegaard can be seen moving inexorably toward the famous attack on Christendom with which he ended his life
