the arts and culture of the western Grassfields scholars have given much attention only to the dominant kingdoms As such Bambui and many other smaller kingdoms have been rendered voiceless This text brings forth the voice of one of the smallest kingdoms in the western Grassfields through the presentation of its historical arts and culture and the changes that have taken and continue to take place in the society It represents primarily an examination of the socio cultural organisation of the kingdom and the various kinds of art that are used within the different contexts These milestones are well illustrated with historical and contemporary images
