private homes Drawing on interviews and ethnographic observation she details the dilemma for parents stuck between a commitment to social inclusion and a desire for control of their children s eating Ultimately Patico argues that the attitudes of middle class parents toward food reflect an underlying neoliberal capitalist ethic in which their need to cultivate proper food consumption for their children can actually work to reinforce class privilege and exclusion Listening closely to adults and children s food concerns *The Trouble with Snack Time* explores those unintended effects and suggests how the crisis of children s food might be reimagined toward different ends
