Action Learning in Health, Social and Community Care John Edmonstone, 2017-09-22
This comprehensive guide covers all aspects of action learning, one of the most widely used development methods in health, social, and community care. The book addresses the theory and practice of action learning in these fields and considers action learning as an adult educational ethos as well as a helpful tool. Based upon emerging experience, it identifies good practice in action learning and offers a wide range of resources to enable individuals and organisations to extract maximum benefit from this approach. Offering practical tips grounded in sound educational principles, this book is invaluable reading for all senior managers and professionals considering using action learning for leadership, management, and organisation development purposes, including organisation development practitioners and action learning facilitators, and for medical and healthcare educators and their counterparts in social and community care looking for a general introduction to this growing field.
