modes namely enforcing democratization by enduring post war occupation mode 1 restoring an elected government by military intervention mode 2 intervening in on going massacres and civil war with military forces humanitarian intervention and thereby curbing the national sovereignty of those countries mode 3 and forcing democracy on rogue states by democratic intervention in other words democracy through war mode 4 The contributions link juridical and philosophical reflections on just war ad bellum with empirical evidence post bellum in Afghanistan Georgia Serbia Croatia Cambodia and East Timor All empirical analyses stress the complexity and difficulties to establish democracy in post conflict societies driven or monitored by external actors Such an endeavour implies a comprehensive agenda of political social and economic methods of peace building However if external actors withdraw before the roots of democracy are deep enough and before democratic institutions are strong enough to stand alone then the entire endeavour may fail This book was originally published as a special issue of Democratization
