Wagner III, 2014-11-26 The battle that unfolded at the Little Big Horn River on June 25 1876 marked a watershed in the history of the Plains Indians While a stunning victory for the Sioux and Cheyenne peoples it initiated a new and vigorous effort by the U S government to rid the west of marauding tribes and to realize the ideal of Manifest Destiny While thousands of books and articles have covered different aspects of the battle few if any have analyzed the tactics and chronology to arrive at a satisfactory explanation of what befell George Armstrong Custer and the 209 men who died alongside him This volume seeks to explain the circumstances culminating in the near destruction of the 7th Cavalry Regiment by a close examination of timing setting every event to a specific moment based on accounts of the battle s participants      *Recovering the Piedmont Past* Timothy Paul Grady, Melissa A. Walker, 2013-10-01 A window into the social and cultural life of the South Carolina upcountry during the nineteenth century The history of South Carolina s lowcountry has been well documented by historians but the upcountry the region of the state north and west of Columbia and the geologic fall line has only recently begun to receive extensive scholarly attention The essays in this collection provide a window into the social and cultural life of the upstate during the nineteenth century The contributors explore topics such as the history of education in the region post Civil War occupation by Union troops upcountry tourism Freedman s Bureau s efforts to educate African Americans and the complex dynamics of lynch mobs in the late nineteenth century *Recovering the Piedmont Past* illustrates larger trends of social transformation occurring in the region at a time that shaped religion education race relations and the economy well into the twentieth century The essays add depth and complexity to our understanding of nineteenth century southern history and challenge accepted narratives about a homogeneous South Ultimately each of the eight essays explores little known facets of the history of upcountry South Carolina in the nineteenth century The collection includes a foreword by Orville Vernon Burton professor of history and director of the Cyberinstitute at Clemson University      *Cyclorama of Gen.
