The Mishnah Herbert Danby,2022-04-26 The Mishnah or the Mishna is the first major written collection of the Jewish oral traditions which is known as the Oral Torah It is also the first major work of rabbinic literature The Mishnah was redacted by Judah ha Nasi at the beginning of the 3rd century CE in a time when according to the Talmud the persecution of the Jews and the passage of time raised the possibility that the details of the oral traditions of the Pharisees from the Second Temple period would be forgotten Most of the Mishnah is written in Mishnaic Hebrew but some parts are in Aramaic The Vitality of Rabbinic Imagination Jacob Neusner,2005-02-15 Assessed against comparable documents of Scripture and the Qumran library the Mishnah shows itself as a triumph of imagination It exhibits remarkable capacity to think in new and astonishing ways about familiar things This study compares the Mishnah to four biblical codes and two codes found among the Dead Sea Scrolls The comparison provides perspective upon the uniqueness of the Mishnah in its Israelite context of Scripture and tradition Linked to Scripture and in dialogue with Scripture the Mishnah struck out in new paths altogether from those set forth by Scripture s codes and those that imitated them The capacity to think in fresh ways about the Scripture s own imperatives and their implications attests to the validity of Rabbinic imagination that reaches concrete expression in the Mishnah a triumph of reconstruction and creative recapitulation **A History of the Mishnaic Law of Holy Things, Part 2**

Jacob Neusner,2007-04-01 The history of Jews from the period of the Second Temple to the rise of Islam From A History of the Mishnaic Law of Appointed Times Part 1 This volume introduces the sources of Judaism in late antiquity to scholars in adjacent fields such as the study of the Old and New Testaments Ancient History the ancient Near East and the history of religion In two volumes leading American Israeli and European specialists in the history literature theology and archaeology of Judaism offer factual answers to the two questions that the study of any religion in ancient times must raise The first is what are the sources written and in material culture that inform us about that religion The second is how have we to understand those sources in reconstructing the history of various Judaic systems in antiquity The chapters

set forth in simple statements intelligible to non specialists the facts which the sources provide Because of the nature of the subject and acute interest in it the specialists also raise some questions particular to the study of Judaism dealing with its historical relationship with nascent Christianity in New Testament times The work forms the starting point for the study of all the principal questions concerning Judaism in late antiquity and sets forth the most current critical results of scholarship
