*The Classical Weekly*, 1918      **Greek Literature in Late Antiquity** Scott Fitzgerald Johnson, 2016-04-22 Late Antiquity has attracted a significant amount of attention in recent years As a historical period it has thus far been defined by the transformation of Roman institutions the emergence of distinct religious cultures Jewish Christian Islamic and the transmission of ancient knowledge to medieval and early modern Europe Despite all this the study of late antique literary culture is still in its infancy especially for the Greek and other eastern texts examined in this volume The contributions here presented make new inroads into a rich literature notable above all for its flexibility and unparalleled creativity in combining multiple languages and literary traditions The authors and texts discussed include Philostratus Eusebius of Caesarea Nonnos of Panopolis the important St Polyeuktos epigram and numerous others The volume makes use of a variety of interdisciplinary approaches in an attempt to provoke discussion on change Dynamism literary education Didacticism and reception studies Classicism The result is a study which highlights the erudition and literary sophistication characteristic of the period and brings questions of contextualization linguistic association and artistic imagination to bear on little known or undervalued texts without neglecting important evidence from material culture and social practices With contributions by both established scholars and young innovators in the field of late antique studies there is no work of comparable authority or scope currently available This volume will stimulate further interest in a range of untapped texts from Late Antiquity

General Catalogue of Printed Books British Museum. Department of Printed Books, 1972      *Yale Classical Studies* Harry Mortimer Hubbell, 1952      **The English Catalogue of Books [annual]**, 1922 Vols for 1898 1968 include a directory of publishers      **The American Oxonian**, 1930 List of Rhodes scholars 1904 1915 v 2 p 145 161 Vol for 1934 include Addresses and occupations of Rhodes scholars and other Oxonians called 1934 36 Addresses and occupations of Rhodes scholars      American Journal of Philology, 1970 Each number includes Reviews and book notices      Beyond Greece and Rome Jane Grogan, 2020-04-23 Though the subject of classical reception in early modern Europe is a familiar one modern scholarship has tended to assume the dominance of Greece and Rome in engagements with the classical world during that period The essays in this volume aim to challenge this prevailing view by arguing for the significance and familiarity of the ancient near east to early modern Europe establishing the diversity and expansiveness of the classical world known to authors like Shakespeare and Montaigne in what we now call the global Renaissance However global Renaissance studies has tended to look away from classical reception exacerbating the blind spot around the significance of the ancient near east for early modern Europe Yet this wider classical world supported new modes of humanist thought and unprecedented cross cultural encounters as well as informing new forms of writing such as travel writing and antiquarian treatises in many cases and befitting its Herodotean origins the ancient near east raises questions of travel empire religious diversity cultural relativism and the history of European culture itself in ways that prompted detailed engaging and functional responses by

early modern readers and writers Bringing together a range of approaches from across the fields of classical studies history and comparative literature this volume seeks both to emphasize the transnational interdisciplinary and interrogative nature of classical reception and to make a compelling case for the continued relevance of the texts concepts and materials of the ancient near east specifically to early modern culture and scholarship
