Smuggling Armageddon:

Smuggling Armageddon Rensselaer W. Lee, 2000-01-15 Smuggling Armageddon looks at one of the most troubling international concerns of the 1990s and beyond the illegal trade in nuclear materials that has erupted in the Newly Independent States, NIS, and Europe since the collapse of the former Soviet Union. Rensselaer Lee raises the seldom asked question of whether such traffic poses a threat of consequence to international security and stability while showing readers a Russia beset with a variety of criminal proliferation channels, increasingly sophisticated smuggling operations, and nuclear stockpiles with breached security. Smuggling Armageddon is sure to provoke controversy and raise the specter of nuclear destruction once again.

Nuclear Terrorism after 9/11 Robin M. Frost, 2020-10-28 The very mention of nuclear terrorism is enough to rouse strong reactions and understandably so because it combines the most terrifying weapons and the most threatening of people in a single phrase. The possibility that terrorists could obtain and use nuclear weapons deserves careful analysis but discussion has all too often been contaminated with exaggeration even hysteria. For example, it has been claimed that nuclear terrorism poses an existential threat to the United States. This Adelphi Paper develops a more measured analysis of the risk of terrorists detonating a true fission device. The problem is attacked from two perspectives: the considerable, possibly insurmountable technical challenges involved in obtaining a functional nuclear weapon, whether home made or begged, borrowed, or stolen from a state arsenal; and the question of the strategic, political, and psychological motivations to go nuclear. The conclusions are that nuclear terrorism is a less significant threat than is commonly believed and that among terrorists, Muslim extremists are not the most likely to use nuclear weapons.

Dark Logic Robert Mandel, 2011 This book constitutes the first major study showing 1) when transnational organized crime is likely to use corruption and violence tactics, 2) when transnational criminal activities most affect individual and state security, and 3) when the negative consequences of these tactics and activities can be most successfully combated.

Globalization and National Security Jonathan Kirshner, 2013-01-11 In this book, top scholars of international relations assess the consequences of globalization for national security, identifying three distinct processes of globalization: the intensification of economic exchange, the flow of information, and marketization; the expansion of the set of social relations governed by market forces; exploring how they can affect the capacity and power of states, as well as conflict within and among them. Though much has been written on the topics of globalization and national security, there has been relatively little in the way of a systematic examination of the impact that globalization has on a state's national security. These essays deal with how stateless actors, such as terrorists, utilize the benefits of globalization, changing the nature of the security game. Failure to account for the influence of globalization will make it increasingly difficult to understand changes in the balance of power, prospects for war, and strategic choices embraced by states.

Terrorism as Crime Mark S. Hamm, 2007-03 Car bombing, suicide bombing, abduction, smuggling, homicide, and hijacking are all profoundly criminal acts. In *Terrorism as Crime*, Mark S. Hamm presents an understanding of

terrorism from a criminological point of view arguing that the most successful way to understand detect prosecute and deter these acts is to use conventional criminal investigation methods Whether in Oklahoma City or London Terrorism as Crime demonstrates that criminal activity is the lifeblood of terrorist groups and that there are simple common denominators at work that can remove the mystery surrounding many of these terrorist groups Once understood the vulnerabilities of these organizations can be exposed This important volume focuses in on six case studies of crimes committed by jihad and domestic right wing groups including biographies of more than two dozen terrorists along with descriptions of their organizations strategies and terrorist plots Terrorism as Crime offers an original and significant framework for explaining international and domestic terrorism as well as how future acts might be detected or exposed Morocco and Armageddon Edmund Dene Morel,1915 **Al Qaeda Connection** Paul L. Williams,2005-09-06 Looks at the international threat to the United States and how Al Qaeda has connections to organized crime families and drug traffickers to help finance their activities **The Containment of Transnational Organized Crime** Hans-Jörg Albrecht,Cyrille Fijnaut,2002

Cataloging Bulletin Hennepin County Library. Cataloging Section,1999 *Canadian-American Slavic Studies* ,2002 A quarterly journal devoted to Russia and East Europe **Transnational Threats** Kimberley L. Thachuk,2007-05-30 The editor has compiled a collection of essays that provide an overview of the dark side of globalization and establish strong connections between organized crime and terrorist groups The world carefully documents the extent of these transnational challenges ranging from nacro terrorism to human trafficking to small arms trafficking This book includes chapters that cover countries regions and international issues In addition the US is treated both as a potential leader in attempts to control transnational crime and as a venue for it Many will be surprised by the extent of human trafficking and forms of slavery within the US Each transnational threat is discussed the security implications elucidated and the successes and failures to control them explained Nuclear Weapons Into the 21st Century Joachim Krause,Andreas Wenger,2001 Bern Berlin Bruxelles Frankfurt M New York Oxford Wien 2001 **Costs of Disarmament--disarming the Costs** Susan Willett,2003 This study evaluates the costs and benefits of nuclear arms control treaties between the US and the Soviet Union Russian Federation The report finds that although the implementation and verification of nuclear arms control regimes can be expensive these costs pale into insignificance compared to the costs and risks of nuclear rearmament and the consequences of a nuclear arms race **Nuclear Proliferation** A. M. Babkina,2002 Since the nuclear genie was let out of the bottle nuclear weapons have been the exclusive domain of a select few countries At the dawn of the next millennium however the notion that small countries and even a few individuals many acquire and use them or threaten to is a major concern This annotated bibliography presents citations of the current book and journal literature which deal with this dangerous issue Access is provided through subject author and titles indexes *Terrorism in Perspective* Pamala L. Griset,Sue Mahan,2003 This multidisciplinary groundbreaking collection combines original thematic essays with the best of the existing literature on

the study of terrorism It offers a comprehensive overview of global and domestic terrorism by focusing on acts of terrorism and their relationship to culture religion history politics economics and ideology Each chapter contains an overview of specific areas in the field along with key articles on each subject This book is the first of its kind to provide students academics and researchers with photographs maps and online references for further study This is a welcome addition for courses in criminal justice criminology sociology and political science *Will Terrorists Go Nuclear?* Brian Michael Jenkins,2008 For more than 30 years Jenkins has been advising the military government and prestigious think tanks on the dangers of nuclear proliferation Now he goes beyond what the experts know to examine how terrorists themselves think about such weapons *Choice* ,2009 *The China and Eurasia Forum Quarterly* ,2006 *Cumulated Index to the Books* ,1999 **Resolved that the United States Should Substantially Change Its Foreign Policy Toward Russia** Sherry B. Shapiro,1998

Eventually, you will utterly discover a new experience and success by spending more cash. yet when? pull off you say you will that you require to get those all needs similar to having significantly cash?
