Strands Of Sunlight:

Strands of Sunlight Gael Baudino,2013-12-10 In the conclusion of the Strand Novels Natil now living in modern Denver must guide a small group of humans with elven blood toward their true destiny The powers of the Elves have lain dormant for half a millennium but the immortal bloodlines are very much alive In present day Denver sixteen people have felt their elven heritage stirring their abilities as healers and seers manifesting and blossoming and Natil through unimaginable favor and grace brought forward in time is there to shepherd them through their transformation Told through interweaving narratives Strands of Sunlight is the story of the reborn Elves as well as that of TK a troubled Vietnam veteran embroiled in a conflict with local drug dealers Sandy Joy a college student caught in the manipulative wiles of a fraudulent instructor and Natil herself struggling to bring about the final awakening of the elven blood Strands of Sunlight is the final book of the Strand Novels More about the Elves can be found in the story collection *Spires of Spirit Living with Our Sun's Ultraviolet Rays* Arthur C. Giese,2012-12-06 Sunlight is part of everyday life and we accept it as good and good it is in a number of ways The sun is our source of warmth and of the light by which we see It is in fact the source of the energy with which life continues on earth It furnishes energy for photosynthesis and the products of photosynthesis constitute our food building materials and fuel A steady state of balance and fine interrelationships exists between life on earth and all the forces and stresses in nature This book will pin point the balance and relationships we share with sunlight Our primary focus will be on the ultraviolet radiation of the sun and on the ultraviolet photobiology of life on earth This is the story of the effects of the sun's ultraviolet radiation both good and bad on all of us and all of life We will explore the nature of the sun's ultraviolet radiation as it reaches the earth's surface today and as it probably affected the earth in the distant past and examine the effect of such radiation on all life unicellular organisms as well as multicellular plants and animals The effects of the sun's ultraviolet rays are primarily a result of their action upon cells and secondarily a result of their interactions between cells The cell of a multicellular organism man included is also part of the tissue of an organ and the organ is part of the whole organism
