Strangers In Blood:

Strangers in Blood Jennifer S. H. Brown, 1996-01-01 For two centuries 1670 1870 English Scottish and Canadian fur traders voyaged the myriad waterways of Rupert s Land the vast territory charted to the Hudson s Bay Company and later splintered among five Canadian provinces and four American states The knowledge and support of northern Native peoples were critical to the newcomer s survival and success With acquaintance and alliance came intermarriage and the unions of European traders and Native women generated thousands of descendants Jennifer Brown s *Strangers in Blood* is the first work to look systematically at these parents and their children Brown focuses on Hudson s Bay Company officers and North West Company wintering partners and clerks those whose relationships are best known from post journals correspondence accounts and wills The durability of such families varied greatly Settlers missionaries European women and sometimes the courts challenged fur trade marriages Some officers Scottish and Canadian relatives dismissed Native wives and Indian progeny as illegitimate Traders who took these ties seriously were obliged to defend them to leave wills recognizing their wives and children and to secure their legal and social status to prove that they were kin not strangers in blood Brown illustrates that the lives and identities of these children were shaped by factors far more complex than blood Sons and daughters diverged along paths affected by gender Some descendants became M tis and espoused M tis nationhood under Louis Riel Others rejected or were never offered that course they passed into white or Indian communities or in some instances identified themselves without prejudice as half breeds The fur trade did not coalesce into a single society Rather like Rupert s Land it splintered and the historical consequences have been with us ever since
