Strategic Debate:

The New U.S. Strategic Debate Ronald D. Asmus, 1993 Discusses how the old bipartisan consensus that placed containment and deterrence of the Soviet Union at the center of U S national security strategy has given way to a contentious debate over what constitutes U S security interests

The New U.S. Strategic Debate, 1994 This RAND report examines the emerging debate in the United States over post Cold War national security strategy It discusses the ideas now clashing and competing for preeminence as our leaders seek to forge a new post Cold War national security consensus in a changing domestic context For the past four decades the United States has enjoyed a bipartisan consensus in national security strategy That consensus is now eroding as politicians and diplomats strategists and defense planners and scholars and the general public grapple with the meaning of the end of the Cold War In its place a burgeoning debate is emerging about the nature of the post Cold War world and the desired American role in it Against this background strategists and defense planners need more than ever before to be cognizant of the domestic pressures reshaping elite and public thinking This essay should be read as a contribution to a better understanding of these factors

Strategic Debate Vance Trefethen, 2007

Strategy for Chaos Colin Gray, 2004-08-02 In this volume Professor Colin Gray develops and applies the theory and scholarship on the allegedly historical practice of the Revolution in Military Affairs RMA in order to improve our comprehension of how and why strategy works The author explores the RMA hypothesis both theoretically and historically The book argues that the conduct of an RMA has to be examined as a form of strategic behaviour which means that of necessity it must work as strategy works The great RMA debate of the 1990s is reviewed empathetically though sceptically by the author with every major school of thought allowed its day in court The author presents three historical RMAs as case studies for his argument those arguably revealed in the wars of the French Revolution and Napoleon in World War I and in the nuclear age The focus of his analysis is how these grand RMAs functioned strategically The conclusions that he draws from these empirical exercises are then applied to help us understand what indeed is and what is not happening with the much vaunted information technology led RMA of today

Strategic Debate Roy V. Wood (retorika.), Lynn Goodnight, 1995

Europe: a time for strategy (Egmont Paper 27), 2009 The debate was concluded by the adoption of a Report on the Implementation of the European Security Strategy Providing Security in a Changing World by the December 2008 European Council 1 which decided to leave the text of the ESS itself untouched The Report does not replace the ESS but reinforces it and the ESS remains in force The question now is will actionable conclusions be drawn from the Report in order to effectively improve implementation of the ESS For even if one agrees with the decision not to revise the ESS itself problems of implementation there undoubtedly are If the process ends here most observers will rightfully be disappointed This Egmont Paper summarizes what we see as urgent priorities for the EU to address in order to fulfil its inevitable ambition of being a

Grand Strategy and the Presidency C. Dale Walton, 2012-02-20 This book examines the role and importance of the Presidency in the formulation and conduct of US grand strategy The text discusses US strategic history with particular emphasis on the period from the end of the Cold War to the present day While the United States periodically has enjoyed exceptional presidential leadership in the past this book argues that few future presidents will meet high standards of leadership in foreign affairs In turn this will undermine the ability of the United States to construct and maintain a coherent grand strategy appropriate to the multipolar world of the twenty first century Grand Strategy and the Presidency explores the role that the holders of the presidential office have played in the past development of the United States as a great power Drawing upon examples from history the textual analysis is shaped around the description of the long term strategic development of the United States The author then considers what the events of recent decades portend for the future of US strategy and foreign policy This book will be of interest to students of Presidential Studies US foreign policy Strategic Studies and IR Security Studies in general

Bernard Brodie and the Foundations of American Nuclear Strategy Barry Howard Steiner, 1991 Steiner analyzes how and why Brodie s understanding of weapons of unparalleled explosive force led him to posit the need for revolutionary strategic thinking in broadminded analytic method and in the focus upon cities as nuclear targets He shows the tremendous effect Brodie s work had on the intellectual climate in which policy is determined particularly in his frequent combatting of conventional wisdom

The Russian Way of War Richard W. Strategic Debate Roy V. Wood, Lynn Goodnight, 1989 *Strategy, National Interests, and Means to an End* Stephen D. Sklenka, 2007 The U S inability or unwillingness to connect strategic ends and appropriate means to accomplish those ends has occurred so often over the past 15 years that one could make a credible argument that it has become a disturbing and pervasive characteristic of the modern American way of war Beginning with a theoretical discussion of the relationship among ends means and strategy this paper continues by

examining specific cases of U S intervention from the previous decade and Operation Iraqi Freedom to demonstrate that when the U S commits its military forces success can only be achieved if clear ends are identified appropriate means are leveraged against those stated ends and a coherent strategy is developed to coordinate the ends and means D-Day, 1944 Theodore A.
