The Search For Leadership:

The Search for Leadership William Tate, 2009-05-21 Why and how to apply Systems Thinking to the design structure and day to day running of your organisation The Search for Leadership Allen E. Roberts, 1987 **The Search for Ethics in Leadership, Business, and Beyond** Joanne B. Ciulla, 2020-05-05 This book brings together a wide range of topics in leadership ethics and business ethics It approaches these topics from the perspective of the humanities as well as the social sciences About half of the book is on leadership and the other half on topics in business ethics Besides these general areas of research the book explores how to teach and study ethics in both business ethics and leadership studies Specifically it examines issues ranging from the nature of ethical leadership to studies of authenticity virtue and the public and private morality of leaders In business ethics the subjects covered span from moral imagination to casuistry meaningful work and workplace ethics The book includes a section on the importance of liberal arts for studying and teaching ethics in business and professional schools It concludes with a reflection on the ethical challenges of leaders and followers in a world where some leaders have inverted moral values *Where's my dog? The search for honest leadership.* David B. Watkins, 2013-04-15 What a bizarre title But it is interesting isn't it Doesn't it make you ask What could this be all about Well the truth is it's not about dogs at all it's about leadership and honesty Nevertheless dogs are a useful metaphor You see dogs are the closest thing we can find when searching for examples of uncompromising honesty Dishonesty is not part of their DNA In contrast the problem for many leaders today is that at some level most people lie This may seem like a provocative statement but it's true even though most of the time we do not even know we are doing it Some including many renowned psychologists would even say that at some level we need to lie to survive Do we In a world of business sports and political Watergates and scandals that has even culminated in Papal resignations against a background of vatileaks we seem to suffer from a paradoxical scenario We find ourselves contrasting the lack of honesty that brought down many of our business and sporting figures as exemplified by the likes of Madoff Lance Armstrong and Oscar Pistorius to name a few with the apparent total honesty of leaders such as the Dalai Lama Kofi Anan and even Richard Branson or Steve Jobs We all know that whilst some leaders command respect others do not Some leaders have willing followers whilst others are followed through coercion Some may lose their followers whilst others should never have any And some allow their egos to block trust whilst others are dealers in trust This book is therefore a journey into one of the hottest topics for leaders today honest leadership But this is not just another leadership book or simply a nice story It is about honest leaders changing the world Now that's a big claim But it's deserved because this book sniffs and scratches around the undergrowth searching for the real meaning of honesty and leadership and finishes up helping you uncover your own truth And with the aid of a remarkably simple idea the Eight Axioms of Honest Leadership this book will provide you with the tools and skills to enable you to identify train and maybe even tame your own leadership approach and help you to become a top dog In Search of Ethical Leadership Russi

Lupdag, 1984 *Adult Leader*, 1930 Call for Leadership Marty Zimmerman, Brad Johnson, 2018-03-12 This book describes leadership best practice and thinking through patterns of feedback offered to leaders by their employees and peers and through conversations and stories of people keenly aware of the distinctions that more often spell out authentic leadership practice *The Christian Leader*, 1930 *In Search of Leadership: How Great Leaders Answer the Question Why Lead?* Phil Swift, Phil Harkins, 2008-10-09 What truly drives a leader The role of leadership is crucial to every occupation whether you re in business or government whether you re a parent or a teacher and whether you re at the early stages of your career or are at a crossroads after decades of success Linkage CEO Phil Harkins and ARC Financial Corp cofounder Phil Swift have enjoyed decades of experience in leading and working with other leaders Along the way they became aware that many leaders find themselves in search of their personal purpose for leading This search led them on a new journey traveling around the world to interview corporate executives presidents and prime ministers educators an important spiritual leader and other leaders in a wide array of fields including Mary Robinson first female president of Ireland Henri Landwirth holocaust survivor hotel mogul philanthropist Mikhail Gorbachev former president of the Soviet Union and 1990 winner of the Nobel Peace Prize Rafiah Salim International Center for Leadership in Finance Assistant Secretary General for Human Resources Management U N Rajaa Khuzai former Member of the Iraqi Governing Council Benazir Bhutto former prime minister of Pakistan Erin Gruwell Freedom Writers founder and education innovator Harkins and Swift asked each of these leaders the fundamental question Why Lead The answers were startling in their wide range and also the commonality of a recurring theme Essentially great leaders at some point in time all experience a transformational shift that motivates them to

move to the next level by thinking and operating outside the box of personal power and material gain In Search of Leadership reveals the essential qualities and life lessons of leaders who have made this shift The authors found that all great leaders eventually realize the need to serve not only their organization but society and the world at large By doing so they give profound new meaning to what they do and why
