Slow Movies Ira Jaffe,2014-03-25 In all film there is the desire to capture the motion of life to refuse immobility Agnes Varda has noted But to capture the reality of human experience cinema must fasten on stillness and inaction as much as motion *Slow Movies* investigates movies by acclaimed international directors who in the past three decades have challenged mainstream cinema's reliance on motion and action More than other realist art cinema slow movies by Lisandro Alonso Nuri Bilge Ceylan Pedro Costa Jia Zhang ke Abbas Kiarostami Cristian Mungiu Alexander Sokurov Bela Tarr Gus Van Sant and others radically adhere to space times in which emotion is repressed along with motion editing and dialogue yield to stasis and contemplation action surrenders to emptiness if not death **The Second Circle** Patsy Rodenburg,2017-09-26 The key to unlocking your power and the inspired life that comes with it from the renowned voice and acting coach You know that person the one with that certain something And you've probably dismissed that something as unattainable simply innate But it's a myth that some are born with it and others aren't Everybody can have that presence and the peaceful self acceptance that powers it Patsy Rodenburg reveals that the secret is learning to inhabit the second circle the optimal state between the first circle of introversion and self doubt and the third of aggression and narcissism She provides exercises to help you break the habits that constrict your real power and to better cope with the negative behaviors and attitudes of those around you With wisdom and patience Rodenburg teaches you how to communicate effectively at home work school and most important with yourself The Second Circle will empower you to meet life's most extraordinary trials with brio and to embrace the joys and challenges of every single day **Kurdish Hizbullah in Turkey** Mehmet Kurt,2017-03-20 This study analyses Kurdish Hizbullah as a social movement charting Hizbullah's development from its origins in violent militancy to its move towards a more ambiguous civic mode of engagement Mehmet Kurt explores Hizbullah in Turkey's many paradoxes notably its political

rise and the apparent power of Islamism in a region in which leftist Kurdish political movements dominate political discourse and its composition which in its Sunni and Kurdish makeup differs from the Shiite Hizbullah in Lebanon Through his unique position as an anthropologist theorist and former Imam Kurt produces a work of extraordinary insight an ethnography comprised of extensive interviews with leaders members and supporters of Hizbullah revealing the manner in which Islamic civil society has taken root in a region where ethnic identity has been the primary organising tool against a repressive and violent state

The Covert Side of Initiation Virgil, For decades members of the esoteric community have considered anyone with magical skills and abilities to be a magician As a result there are few magical training systems designed to turn students into magicians and many magical training systems designed to turn students into people with magical skills and abilities The magical training system developed by the Czech adept Franz Bardon and contained in his three books Initiation into Hermetics The Practice of Magical Evocation and The Key to the True Quabbalah is designed to turn students into magicians Unfortunately many students of the system seek only to become people with magical skills and abilities rather than genuine magicians For this reason they often spend years stuck on the system s basic exercises In this book Virgil discusses some key components of magical training that are hinted at but not expounded upon in the text of Bardon s books Completion of these components is what distinguishes people who are magicians from people who merely possess magical skills and abilities In the process of discussing these components Virgil also elaborates on magical principles explained in his previous books offers helpful advice for common problems magicians will encounter during their training and elucidates one of the most misunderstood exercises of Bardon s training system
