time But an old and corrupt Centaurian Empire is holding Terra down as it encircles the Terran system and will not let the humans grow out of their current empire For this reason Terra is at war with Proxima Centauri and is trying to find a way of breaking free from the Centaurian s hold upon them In the war that results Terra is continually coming up with new weapons to try and break the Centaurian defenses but Proxima Centauri is also continually updating its defenses Using spies and other such tactics both parties find out about each other s advances and no actual fighting ever occurs because both sides are too busy trying to beat each other with new technological developments Terra even calculates their chances to win a war versus Centauri and updates these calculations with each new development making their decision about a war rely on this

calculation Eventually Terra comes up with a concept for a bomb called Icarus that Proxima can not defend against because it travels at faster than light speeds making use of the buildup of mass at near light speeds as a destructive agent when it slows down to below light speed Then the odds start to side with Terra and Terra prepares to fight with this new found technology There are two problems 1 is that Icarus does not yet work which prevents Terra from using it against Proxima Centauri and 2 that the existence of Cole on Terra is an unknown variable that confuses the war win probability computer Hence the book title **The Variable Man** Philip K. The Variable Man Philip K. Dick,2015-04-17 In the middle of the twenty second century Terra a k a Earth has expanded its influence throughout the Solar System but a vast yet weak empire rules the rest of the Galaxy Terrans have been at war with this empire for generations and have never been in a position to prevail over their adversaries However the invention of a new weapon a faster than light bomb may finally shift the balance of power in their favor Unfortunately due to an accident with time travel a man form the twentieth century ends up in their midst and his very existence seems to be the cause of uncertainty for the sophisticated prediction computers on which the Terran military establishment relies in planning of their attack The visitor from the past is thus the variable man a man whose very existence undermines brings a lot of indeterminism to the military plans This longish story or a short novella is one of the finest examples of PKD s sci fi writing skills The story is well developed although from the vantage point of today s sci fi there are many loose ends and naive plot developments The story has the charm of vintage sci fi all with almost laughably simpleminded view of the 22nd century technology vidphones are poor man s versions of iPhones and very inaccurate presentation of science If you are looking for a polished and technologically sophisticated story than you will very disappointed On the other hand if you are tired of all the predictable and mechanistic stories that you can read today and enjoy raw rough ideas that aim for immediate impact then you will definitely enjoy The Variable Man
