Venezuela **The View from the Barrio** Lisa Redfield Peattie, 1970 **Women's Right to the City** Cruz Armando González Izaguirre, 2019-11-20  
Der Autor analysiert wie Frauen ihre politischen Ansprüche auf Wohnen mit der Familie als politischer Kategorie in der Gestaltung von Stadtumgebungen in Sinaloa Mexiko Mitte der 70er und 80er Jahre gestalteten Frauen forderten und verstärkten die kulturelle und politische Bedeutung der Selbstverwaltung der Frauen während sie versuchten ihre dringenden Wohnbedürfnisse zu erfüllen ein Stück Land für ihre Kinder zu erwerben und diesen zu legalisieren Diese intergenerationelle Beziehung zwischen der politischen Partizipation von Frauen und der Familie als politischer Kategorie zeigt dass die Familie ein entscheidender Faktor bei der Entwicklung von Siedlungen unterschiedlicher Intensität und Bedeutung war Das politische Engagement der Frauen fand während ihres gesamten Kampfes um den Zugang zu Wohnraum statt Landnahme Organisation neuer Siedlungen und Erlangung des rechtlichen Eigentums an ihren Grundstücken Die individuellen und kollektiven Erfahrungen der Frauen zeigen daher einen dynamischen Prozess der politischen Subjektwerdung der auf dem Anspruch ein Stück Land für die Familie basiert **Timing the Future Metropolis** Peter Ekman, 2024-11-15  
Timing the Future Metropolis an intellectual history of planning urbanism design and social science explores the network of postwar institutions formed amid specters of urban crisis and renewal that set out to envision the future of the American city Peter Ekman focuses on one decisive node in the network the Joint Center for Urban Studies founded in 1959 by scholars at Harvard and MIT Through its sprawling programs of organized research its manifold connections to universities foundations publishers and policymakers and its years of consultation on the planning of a new city in Venezuela Ciudad Guayana the Joint Center became preoccupied with the question of how to conceptualize the urban future as an object of knowledge Timing the Future Metropolis ultimately compels a broader reflection on temporality in urban planning rethinking how we might imagine cities yet to come and the consequences of deciding not to **Violence in the Barrios of Caracas** Daniel S. Leon, 2019-07-02  
This book presents an overview of the problem of urban violence in Caracas and specifically in its barrios It helps situate readers familiar or not with Latin American in the context that is Caracas Venezuela a city displaying one of the world's highest homicide rates The book offers a qualitative comparison of the informal mechanisms of social control in three barrios of Caracas This comprehensive analysis can help explain high homicide rates while socio economic conditions improved due to substantial oil windfalls in the twenty first century The author describes why informal social control was not effective in some barrios and points to the role of some organizational arrangements in increasing the incentives to use violence even under improving socio economic conditions The analysis addresses a gap in the literature on violence which mainly posits high violence rates after economic downturns Specifically it investigates social capital's moderating effect between Caracas political and economic structures and high violence rates

This book concludes that perverse social capital found in the barrios of Caracas helps explain high violence rates while socio economic indicators improved until the early 2010s Students and researchers interested in security studies or Latin America will benefit from this book because of its extensive theoretical discussions use of primary sources and unique multidisciplinary analysis of urban violence [ours] Hyperlocalization of Architecture Andrew Michler,2015 The evolution of contemporary environmental architecture has outstripped simple labels A deeper pattern is emerging where the world s most innovative buildings are a response to place They resolve the complex intertwining of the site people and environment providing a provocative observation of the future of architecture By starting with the site these projects maximize the natural and cultural resources available and are humancentric The book explores firsthand how Spain Wraps commercial buildings Japan Condenses micro homes and Australia Unfolds aggressive design solutions in a climate of extremes Germany Cascadia Denmark and Mexico are also featured 30 selected projects provide the antidote to the legacy of the modernist movement of generic technology driven built environments Illuminating and often surprising conversations with renowned architects on their work reveal the process and promise of hyperlocalized design which folds bold visions into low impact and unexpected buildings Their contemporary wisdom of site responsive design offers an unprecedented insight into architecture s new place in a changing climate ours Hyperlocalization of Architecture includes Groundbreaking architecture theory Extensive interviews with world s thought leaders of environmental architecture 264 Pages 350 full color photographs Online project index with details and multimedia at hyperlocalarch com Interviews and Projects by Studio 505 PHOOEY Architects William McDonough Partners KUD Architects Berta Barrio Arquitectos Francis Jones Morehen Thorp Unemori Architects Andrew Maynard Architects Edward Mazria Peter Busby Perkins Will Sean Godsell Canvas Arquitectos Dr Wolfgang Feist DesignInc Hassell Studios Kavellaris Urban Design Lederer Ragnarsdottir Oei Casey Brown Architecture A L X Architects BIG Yasuhiro Yamashita Miller Hull KMD Architects MPR Design Group Schemata Architecture Coll Barreu Arquitectos Voluar Architecture Durbach Block Jagger Ram n Fern ndez Alonso Architect This is all based on human creativity and the ability for us to advance and continuously improve with freedom from the remote tyranny of bad design That s why the cultural question becomes interesting because at that point the culture can express itself in a creative way It still has integrity because you re expressing yourself creatively within a context Your solving for rich local problems All sustainability like politics is local It has to be William McDonough in ours **Official Philippine Motor Road and Touring Guide** ,1929
