These systems continue to gain interest for their capacity to modify the excitability of other neural areas and functions. Their close association with the cerebral cortex and with the limbic mechanisms around the hilus of the hemisphere has attracted major research attention both in this country and Europe and is increasingly under study in Latin America, Japan, and the USSR.

Current world literature is reviewed here and related to the work of the Los Angeles group in this expanded and extensively illustrated monograph.

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
