their cues still from Paine Rousseau and Hobbes Science looks yet to Bacon Copernicus and Darwin So here are the few most used most quoted the most given sources of the West The books that have defined the way the West thinks now in their author s own words but condensed and abridged into something readable And there s more By compressing these books to a tenth or so of their original size it becomes possible to read the whole thing as a single narrative as the story of Western Thought the story of how we got where we are now The last chapter is waiting to be written *Art History Versus Aesthetics* James Elkins,2012-11-12 In this unprecedented collection over twenty of the world s most prominent thinkers on the subject including Arthur Danto Stephen Melville Wendy Steiner Alexander Nehamas and Jay Bernstein ponder the disconnect between these two disciplines The volume has a radically innovative structure it begins with introductions and centres on an animated conversation among ten historians and aestheticians That conversation was then sent to twenty scholars for commentary and their responses are very diverse some are informal letters and others full essays with footnotes Some think they have the answer in hand and others raise yet more questions The volume ends with two synoptic essays one by a prominent aesthetician and the other by a literary critic This stimulating inaugural volume in the Routledge The Art Seminar series presents not one but many answers to the question Does philosophy have anything to say to art history
