convention 1911 39 Harvesting History Daniel P. Ott, 2023 Harvesting History explores how the highly contentious claim
of Cyrus McCormick s 1831 invention of the reaper came to be incorporated into the American historical canon as a fact
Spanning the late 1870s to the 1930s Daniel P Ott reveals how the McCormick family and various affiliated businesses
created a usable past about their departed patriarch Cyrus McCormick and his role in creating modern civilization through
advertising and the emerging historical profession The mythical invention narrative was widely peddled for decades by
salesmen and in catalogs as well as in corporate public education campaigns and eventually in history books to justify the
family s elite position in American society and its monopolistic control of the harvester industry in the face of political and
popular antagonism As a parallel story to the McCormicks manipulation of the past Harvesting History also provides a
glimpse of the nascent discipline of history during the Progressive Era Early historians were anxious to demonstrate their
value in the new corporate economy as modern professionals and objective guardians of the past While ethics might have
prevented them from being historians for hire their own desire for inclusion in the emerging middle class predisposed them
to be receptive to the McCormicks financial influence as well as their historical messages *Collecting Paper Money for*
