Vocational English Albert E. Jochen, 1975 **Vocational English, Books 1-3** Albert E. Jochen, 1968 Vocational English William R. Bowlin, 2015-06-25 Excerpt from Vocational English A Textbook for Commercial and Technical Schools Each year it becomes more difficult for an American to get along in the world unless he speaks and writes good English This book is an attempt to provide the main essentials of an English training sufficient for competent work in any ordinary vocation Part One presents the principles of correct English the laws of the language as to word formation spelling punctuation and above all correct sentence making The student who thoroughly masters Part One will not make the common blunders that mar the writing even of many college students blunders that sometimes give rise to the charge that our education fails to prepare young people for business Part Two provides for practice in composition both oral and written of the kinds most directly useful in everyday life It is not intended that Part One as a whole shall precede Part Two in teaching Both parts will naturally be used to some extent side by side the teacher assigning composition work from Part Two along with study of the principles developed in Part One The following specific suggestions as to the use of the book may be helpful

- 1 The first seven chapters make an obvious natural unit providing a review of the grammatical foundation for correct speaking and writing This study begins with the sentence and its main elements because the fundamental necessity of intelligible composition is proper sentence structure
- 2 Chapter VIII Punctuation can be used at any time after the student has a fair knowledge of correct sentence making and will be valuable for reference throughout the course
- 3 Chapters IX XI inclusive may be studied at the teacher's discretion in relation to other parts of the work but the word study of Chapter IX will be helpful as a basis for the spelling review in Chapter X
