

A STRANGE EXPERIENCE

Strange Experience

Graham B. Forbes

Strange Experience:

Process, Action, and Experience Rowland Stout, 2018-02-23 There has been a philosophical upheaval recently in our understanding of the metaphysics of the mind The philosophy of mind and action has traditionally treated its subject matter as consisting of states and events and completely ignored the category of ongoing process So the mental things that happen experiences and actions have been taken to be completed events and not ongoing processes But events by their very nature as completed wholes are never present to the agent or subject only ongoing processes can be present to a subject in the way required for conscious experience and practical self knowledge This suggests that a proper understanding of processes is required to understand subjective experience and agency This volume explores the possibility and advantages of taking processes to be the subject matter of the philosophy of mind and action The central defining feature of the process argument is its use of the progressive as opposed to perfective aspect But beyond this philosophers working on the metaphysics of processes do not agree The contributors to this volume take up this argument in the metaphysics of processes Are processes continuants Are they particulars at all or should we rather be thinking of process activity as a kind of stuff Process Action and Experience considers whether practical reasoning and practical self knowledge require thinking of action in process terms and it considers arguments for the processive nature of conscious experience *Suspicious Minds* Joel Gold, Ian Gold, 2015-07-21 The Truman Show delusion and other strange beliefs Cover **The Admissible Contents of Experience** Katherine Hawley, Fiona Macpherson, 2011-09-07 Which objects and properties are represented in perceptual experience and how are we able to determine this The papers in this collection address these questions together with other fundamental questions about the nature of perceptual content The book draws together papers by leading international philosophers of mind including Alex Byrne MIT Alva No University of California Berkeley Tim Bayne St Catherine s College Oxford Michael Tye University of Texas Austin Richard Price All Souls College Oxford and Susanna Siegel Harvard University Essays address the central questions surrounding the content of perceptual experience Investigates how are we able to determine the admissible contents of experience Published in association with the journal *Philosophical Quarterly* *Haschisch* Charles Gatchell, 1888 Outlook, 1898 **The Arena**, 1898 Overland Monthly Bret Harte, 1919 *Philosophy and the Return of Violence* Nathan Eckstrand, Christopher Yates, 2011-02-24 The Boys of Columbia High Graham B.
