**Technology-Mediated Language Learning and Teaching** Vurdien, Ruby, Chambers, Wendy, 2024-07-24 In today's rapidly evolving educational landscape, language educators face the daunting challenge of effectively integrating advanced digital technologies into their teaching practices. The COVID-19 pandemic has accelerated the adoption of online and blended learning environments, emphasizing the need for innovative approaches to engage students. However, many educators need access to comprehensive resources that detail cutting-edge research and practical strategies for incorporating digital tools into language instruction. *Technology-Mediated Language Learning and Teaching* is a timely solution to this pressing issue, offering a comprehensive overview of the latest research and theoretical frameworks in using advanced digital technologies in language education. By exploring topics such as gamification, social media, artificial intelligence, and augmented reality, this book provides educators with a roadmap for enhancing student engagement and improving learning outcomes. Through a combination of theoretical insights and practical case studies, this volume equips educators with the knowledge and tools they need to navigate the complex landscape of technology-enhanced language learning.

**Physical Activity, Health and Emerging Technologies** Zan Gao, 2026-04-22 *Physical Activity, Health and Emerging Technologies* explores how technology is reshaping the way we approach fitness and health. Regular physical activity is essential for preventing chronic diseases, improving mental health, and enhancing overall well-being, yet many individuals remain inactive. Traditional interventions often fall short, prompting a shift toward integrating emerging technologies into public health initiatives. This new book examines how tools like fitness trackers, smartwatches, mobile health apps, and AI-driven platforms provide personalized exercise plans, real-time activity tracking, and sustainable behavior change. It delves into how virtual and augmented reality merge entertainment with movement, while digital health hubs offer comprehensive platforms for tracking progress and engaging users. By leveraging theoretical frameworks such as the Social Ecological Model and Social Cognitive Theory, the book provides evidence-based insights for promoting lifelong physical
