The Theorist's Mother Andrew Parker, 2012-03-23 Andrew Parker undertakes a critical reconsideration of the frequently absent or troubled figure of the mother in theorists including Marx Freud Lacan and Derrida *Foundations of in Vitro Fertilization* Christopher M. Fredericks, John D. Paulson, Alan H. DeCherney, 1987 **Imagining the Future** Yuval Levin, 2008-10-10 From stem cell research to global warming human cloning evolution and beyond political debates about science have raged in recent years and to the chagrin of most observers have increasingly fallen into the familiar categories of America's culture wars In *Imagining the Future: Science and American Democracy* Yuval Levin explores the complicated meanings of science and technology in American politics and finds that the science debates have a lot to teach us about our political life These debates Levin argues reveal some serious challenges to American self government and put on stark display the deepest strengths and greatest weaknesses of both the left and the right American life has been profoundly shaped by science and technology and will be all the more so in the coming decades making it crucial that we understand how to think and speak about science in politics Yuval Levin's smart and eminently well reasoned book makes the important point that the purpose of science is a moral one to improve human life and that judging what that involves is sometimes a job for more than science alone in a democratic society Levin's insights speak directly to today's political debates and make his book a must read for policymakers and all those who care about science and society Newt Gingrich former Speaker of the House *Imagining the Future* goes far beyond the contemporary polarized debates over science to unpack the moral premises of the modern scientific project and its consequences for American democracy In the process Yuval Levin provides us with a deep understanding of policy issues from genetic engineering to global warming Francis Fukuyama Johns Hopkins University This book is important to the thinking of both progressives and conservatives Clearly and incisively it shows how science and

technology are shaping humanity's future and world views Levin alerts democratic societies that human dignity and equality are imperiled unless we provide political and moral guidance to prevent the submergence of humanity in its own ingenuity
Edmund Pellegrino Chairman President's Council on Bioethics **The Family in the Age of Biotechnology** Carole Ulanowsky, 1995 The areas covered in this book are connected to a number of debates but focus in particular on family relationships in the context of the new reproductive technologies These include the question of desirable patterns of nature and how these might be met within an individualistic society Biomedical Technology and Public Policy Robert H. Blank, Miriam K. Mills, 1989-12-08 This volume is designed to provide a framework for studying the public policy implications of a broad range of biomedical technologies Each chapter focuses on the policy issues and political activities surrounding a single technology Contributors address such issues as new reproductive technologies animal experimentation contraceptive drugs genetic markers and technology and the aging society **Gynoplastic technology** Arnold Sturmdorf, 1919
