Life as a North Sea Tiger and Beyond Terry Thomas, 2020-06-08 Terry returned from Saudi Arabia in the May of 1978 after a year in the Kingdom with a spring in his step and overflowing with enthusiasm feeling that he could secure a job using the experience he had gained during his time in operations engineering in the Eastern Province of Saudi Having cut his

teeth in a demanding environment and coming out the other end full of ambition to move on in the Petroleum industry and how soon he was to discover it was not to be as easy as he first thought Experiencing an educational system of the 50 s and the inadequacies of that system made Terry realise at an early age that things don t come simple and if you really want something then you had better be prepared to work hard to get it Coming back from Saudi Arabia after soaking up so much experience in the petroleum industry he expected to walk into employment without any problems When that was not the case it was like another wakeup call and reasserted what Terry had previously experienced that nothing comes without an inner drive from yourself to make it happen Originally his wife and himself had agreed that he would work in Saudi Arabia for two years but at the end of the first year and in the fifth week of his six weeks leave period after which Terry was supposed to return they realised that neither relished the idea of being apart from each other and Terry being away from his family for another year He was only too willing to agree that he needed to seek work nearer home and so the search began in July 1978 After many interviews and rejected contracts he finally found his dream job in the North Sea Petroleum industry and his career takes off with an engineering construction company he remained with for over thirty years The book tells of the projects and people he was engaged with including many adventures and events that transpired over the span of his career
