James E. Pfander

The War Terror:

Fresh Perspectives on the War on Terror Miriam Gani, 2008 On 20 September 2001 in an address to a Joint Session of Congress and the American people President George W Bush declared a war on terror The concept of the war on terror has proven to be both an attractive and a potent rhetorical device It has been adopted and elaborated upon by political leaders around the world particularly in the context of military action in Afghanistan and Iraq But use of the rhetoric has not been confined to the military context The war on terror is a domestic one also and the phrase has been used to account for broad criminal legislation sweeping agency powers and potential human rights abuses throughout much of the world This collection seeks both to draw on and to engage critically with the metaphor of war in the context of terrorism It brings together a group of experts from Australia Canada the United Kingdom France and Germany who write about terrorism from a variety of disciplinary perspectives including international law and international relations public and constitutional law criminal law and criminology legal theory and psychology and law

The War on Terror Derek Paget, Stephen Lacey, 2015-05-22 This book explores the ways in which television has engaged directly and indirectly with the new realities of the post 9 11 world It offers detailed analysis of a number of key programmes and series that engage with or are haunted by the aftermath of the events of September 11 in the USA and what is unavoidably through problematically and contentiously referred to as the resulting war on terror The substantive part of the book is a series of independent chapters each written on a different topic and considering different programmes It includes series and single dramas representing the invasion of Iraq The Mark of Cain Occupation and Generation Kill comedic representations Gary Tank Commander documentary the BBC Panorama s coverage of 9 11 what if docudramas Dirty War 9 11 in popular series CSI NY and representations of Tony Blair in drama and docudrama The book concludes with an extended reflection on contemporary docudrama and an interview with filmmaker and docudramatist Peter Kosminsky

Constitutional Torts and the War on Terror James E. Pfander, 2017 Government accountability in the nineteenth century Bivens and government accountability in the twentieth century Human rights and War on Terror litigation Evaluating the effectiveness of Bivens litigation Evaluating justifications for judicial silence Congressional ratification of the bivens action Applying Bivens to conduct outside of the United States Overcoming qualified immunity Common law solutions to judge made problems

Narratives of the War on Terror Michael C. Frank, Pavan Kumar Malreddy, 2020-09-10 Challenging the predominantly Euro American approaches to the field this volume brings together essays on a wide array of literary filmic and journalistic responses to the decade long wars in Afghanistan and Iraq Shifting the focus from so called 9 11 literature to narratives of the war on terror and from the transatlantic world to Iraq Syria Afghanistan the Afghan Pak border region South Waziristan Al Andalus and Kenya the book captures the multiple transnational reverberations of the discourses on terrorism counter terrorism and insurgency These include but are not restricted to the realignment of geopolitical power relations the formation of new terrorist networks ISIS and regional

alliances Iraq Syria the growing number of terrorist incidents in the West the changing discourses on security and technologies of warfare and the leveraging of fundamental constitutional principles The essays featured in this volume draw upon and critically engage with the conceptual trajectories within American literary debates postcolonial discourse and transatlantic literary criticism Collectively they move away from the trauma centrism and residual US centrism of early literary responses to 9 11 and the criticism thereon while responding to postcolonial theory s call for a historical foregrounding of terrorism insurgency and armed violence in the colonial imperial power nexus This book was originally published as a special issue of the European Journal of English Studies Philosophical Perspectives on the "War on Terrorism" ,2007-01-01 This book responds to the Bush Administration position on the war on terror It examines preemption within the context of just war justification for the United States led invasion of Iraq with some authors charging that its tactics serve to increase terror global terrorism and concepts such as reconciliation Islamic identity nationalism and intervention **Assessing the War on Terror** Charles Webel,Mark Tomass,2017-02-17 This volume is a collection of articles that critically examine the efficacy ethics and impact of the War on Terror as it has evolved since 9 11 During the decade and a half of the Global War on Terror GWOT numerous books have considered the political psychosocial and economic impacts of terrorism However there has been little systematic effort to examine the effectiveness of the GWOT in achieving its goals Furthermore there is virtually nothing that presents a comparative analysis of the GWOT by the people most directly affected by it citizens and scholars from conflict zones in the Middle East There is therefore great need for a book that analyzes the strategies tactics and outcomes of the GWOT and that also presents facts and ideas that are missing or underrepresented in the dominant public narratives The contributions in this volume were chosen to specifically address this need In doing so it uniquely provides not only Western perspectives of the GWOT but also importantly includes perspectives from the Middle East and those most directly affected by it including contributions from scholars and policy makers Overall the contributions demonstrate how views differ based on geographical location and how views have changed during the course of the still evolving War on Terror The book will be of much interest to students and scholars of terrorism and counter terrorism foreign policy Middle Eastern politics security studies and IR as well as policy makers *The War on Terror* Paul Ruschmann,2008 Presents articles that argue for and against different types of terrorism prevention discussing the effects of recent reforms preemptive war and whether or not military justice violates human rights **The Iraq Wars and the War on Terror & Index** Brooke Barnett,2005 *Writing the War on Terrorism* Richard Jackson,2005-07-22 This book examines the language of the war on terrorism and is essential reading for anyone wanting to understand how the Bush administration s approach to counter terrorism became the dominant policy paradigm in American politics today Monsters to Destroy Navin A. Bapat,2019-11-04 Terrorism kills far fewer Americans annually than automobile accidents firearms or even lightning strikes Given this minimal risk why does the U S continue expending lives and treasure to fight the

global war on terror In *Monsters to Destroy* Navin A Bapat argues that the war on terror provides the U S a cover for its efforts to expand and preserve American control over global energy markets To gain dominance over these markets the U S offered protection to states critical in the extraction sale and transportation of energy from their terrorist internal and external enemies However since the U S was willing to protect these states in perpetuity the leaders of these regimes had no incentive to disarm their terrorists This inaction allowed terrorists to transition into more powerful and virulent insurgencies leading the protected states to chart their own courses and ultimately break with U S foreign policy objectives Bapat provides a sweeping look at how the loss of influence over these states has accelerated the decline of U S economic and military power locking it into a permanent war for its own economic security
