The book begins with a frank explanation of the need for self-awareness and self-improvement, then describes how the winning formula and the equation for happiness and success in work-life (H S f 4C 2R) can be applied via six types of behaviors to effect sweeping changes. The formula means Happiness and Success can be achieved by is a function of Cooperation, Consideration, Compassion, Courtesy, Respect, and Responsibility. The book focuses not just on the meaning of these values but also on how to better live them. It concludes with a self-assessment tool for the individual, team, or organization to complete that enables objective measurements of behaviors and identification of areas of potential improvement.
