Toward the Next Generation of Bystander Prevention of Sexual and Relationship Violence Victoria L. Banyard, 2015-09-03 This brief integrates and synthesizes an array of research about who helps others and under what conditions and discusses the implications of this research for a bystander intervention focused prevention agenda to reduce sexual and relationship violence in schools and communities It combines an examination of bystander helping behavior in the specific context of sexual and relationship violence with social psychological research on bystander behavior outside that context in order to inform prevention efforts This brief is designed for researchers practitioners and students concerned about violence prevention and who are interested in bystander intervention as a promising prevention strategy Connections between research and practice are the foundation of this brief The brief addresses the following questions What is the promise of a bystander approach to violence prevention Where does it fit within the spectrum of sexual and relationship violence prevention How do we expand theoretical models of helping behavior to the unique context of interpersonal violence How can we bring in research from other areas of health behavior change and developmental research on violence to inform a broader bystander action model It provides a new synthesis and model of bystander interaction It outlines a strategic plan for new research and next steps in prevention practices

Ethics Teaching in Higher Education Daniel Callahan, Sissela Bok, 2012-12-06 A concern for the ethical instruction and formation of students has always been a part of American higher education Yet that concern has by no means been uniform or free from controversy The centrality of moral philosophy in the undergraduate curriculum during the mid 19th Century gave way later during that era to the first signs of increasing specialization of the disciplines By the middle of the 20th Century instruction in ethics had by and large become confined almost exclusively to departments of philosophy and religion Efforts to introduce ethics teaching in the professional schools and elsewhere in the university often met with indifference or outright hostility The past decade has seen a remarkable resurgence of the interest in the teaching of ethics at both the undergraduate and the professional school levels Beginning in 1977 The Hastings Center with the support of the

Rockefeller Brothers Fund and the Carnegie Corporation of New York undertook a systematic study of the state of the teaching of ethics in American higher education

Encyclopedia of Community DAVID LEVINSON, KAREN CHRISTENSEN, 2003-06-30

Click Additional Materials for downloadable materials and samples

Incredibly this is the first encyclopedia to focus on community as concept and experience so stands alone in its field as the one title any library must buy to cover this topic

Essential for all readerships

CHOICEA timely comprehensive and very welcome overview of a rich and rapidly growing field of inquiry

Robert D Putnam Professor at Harvard University and author of *Bowling Alone*

With every passing minute it becomes more and more apparent that our world is one community

The Encyclopedia of Community serves as recognition of this trend and as a needed resource

The four volume set not only explains the emerging buzz words of community such as social capital or civic engagement but also tells many stories of community institutions that work such as public libraries

Sarah Ann Long Past President 1999 2000 American Library Association

As we yearn to connect with our fellow citizens during these uncertain times we have a unique moment to encourage greater participation in our democracy and reinvigorate our communities

The Encyclopedia of Community provides a timely diverse array of theories and practices that will help citizens understand the value of engaging together to make the critical choices that enrich the way we live

learn work and govern in our local communities

The Encyclopedia deserves a prime spot in the libraries homes and offices of all communities that want to invest in a brighter future for their residents and their children

Nancy Kranich Past President of the American Library Association whose presidential theme was *Libraries The Cornerstone of Democracy* 2000 2001

American politicians often pair the word community with the word freedom to describe our basic values

Yet though used constantly the word community is defined in widely different and contested ways

Most people like the idea of community but some intellectuals worry that it might imply collectivism

The great value of this new Encyclopedia is that it gives readers a chance to sample the many uses of the term and gain clarity about the issues at stake

It is a major contribution to a more coherent understanding of this fundamental idea

Robert Bellah Professor of Sociology Emeritus University of California Berkeley and co author of *Habits of the Heart*

SAGE Publications is proud to announce the Encyclopedia of Community a major reference work that summarizes the many fascinating and important concepts of a global topic

Community itself is a concept an experience and a central part of being human

Whether the reader is a student researcher or professional in the field of psychology sociology or even economics this three volume work will provide the necessary definitions of community beyond traditional views

Arranged in an A to Z fashion the Encyclopedia can also be viewed topically via a Reader's Guide

This allows for interdisciplinary compare and contrast among topics such as types of communities social capital technology urban life politics and law community design and global studies

Edited by the award winning team at Berkshire Reference and assisted by an editorial board of world renowned scholars the Encyclopedia of Community will prove to be one of the most widely used reference works in your collection
