Fighting an Invisible Enemy Barry Schoub, 2024-07-01 *Fighting an Invisible Enemy* narrates the founding in 2002 and growth of the internationally renowned centre of excellence for communicable diseases the National Institute for Communicable Diseases NICD in South Africa In a continent riven with a panoply of formidable contagious pathogens the book describes how the nascent NICD travelled a rocky road to maturity Starting humbly as did many of its sister public health institutions around the world the road was strewn with daunting obstacles of financial restrictions bureaucratic straitjacketing international isolation during the apartheid era and in later years the calumny of governmental AIDS denial Following the triumph of the eradication of the once dreaded smallpox the NICD now plays a crucial role in the global effort to eradicate poliomyelitis While the country has the misfortune of the largest HIV AIDS pandemic in the world the Institute's HIV research unit has become a world leader More remote from public notice are the laboratories and support epidemiologists carry out for ongoing surveillance of communicable diseases and the alerts they provide for any signal of an impending outbreak or pandemic The Institute's value to public health was clearly shown in the recent Covid 19 pandemic The maxim that we are only safe when everyone everywhere is safe underlines the importance of international partnerships and the key role the NICD plays not only for the country but also for global health This is a flagship organisation in public health in South Africa and this book paints a vivid portrait of its incredible accomplishments
