Collected Works, Lenin V.I. Lenin,1973 *The Nation in the History of Marxian Thought* Charles C. Herod,2012-12-06

This study is based upon the concept of nations with history and nations without history which was advanced in 1848 1849 in the pages of the *Neue Rheinische Zeitung* a Cologne based German newspaper under the editorship of Karl Marx This theory is presented in this study as a model of opposites historic nations and non historic nations respectively revolutionary nations and counter revolutionary national groups which Engels and Marx associated with the philosophy of Hegel As Marx and Engels saw it Hegel had taught that nature and history abounded in opposites and this was believed to be the essence of his dialectic Marx liked this dialectic better than anything else in Hegel s thought and modified it to fit his own economic theory of history In reality however there are no categories of opposites certainly not in nature no two colors are opposites nor are any two times of the day indeed nothing temporal nothing living nothing that is in process of becoming It is only in human understanding that opposites are introduced In the history of ideas what has been a misunderstanding of Hegel s teachings has exerted a greater influence upon subsequent generations than Hegel s philosophy as he himself understood it With Marx s development of the materialistic concept of history the *Volksgeist* Spirit of the Age so pronounced in Hegel s work lost ground rapidly first because it was difficult to understand and second because its mastery was hardly rewarding to anyone save scholars and philosophers

C.L.R. James's Notes on Dialectics John H. McClendon,2005-01-01 John H McClendon III s CLR James s Notes on Dialectics Left Hegelianism or Marxism Leninism is the first ever book devoted exclusively to James s magnum opus Notes on Dialectics Hegel Marx Lenin The seed for this study was planted over thirty years ago when

James handed the author his personal copy of Notes James's contribution to dialectical philosophy and his vast intellectual and scholarly output is rivalled only by the seemingly bottomless depths of McClendon's own analysis and erudition McClendon provides a thorough going critique of James's exploration into the dialectic of Hegel Marx and Lenin while challenging all the seminal texts on James's Notes A book of this magnitude is rare This is ever more the truth when it is focused on a giant like James who stands at the nexus of so many disciplines philosophy history sociology Caribbean studies cultural studies African and African American studies CLR James's Notes on Dialectics Left Hegelianism or Marxism Leninism is a must read for anyone concerned with how revolutionary theory is a guide to contemporary struggles

The Idea of Nation and its Future in India Shibani Kinkar Chaube, 2016-10-26 This volume is a theoretico empirical study of nations and nationalism on a global scale It enquires if the idea of the nation by its own logic is feasible and whether India fulfils the requirement of nationhood with a reasonable prospect of survival The monograph engages with the theories of nation and nationalism and examines if they are relevant and tenable in contemporary times It looks at the way these ideas have acted out in the Indian nation while attempting to map its future trajectory It also asks how do the two fundamental challenges to the idea of nation ethnicity and class fare in the era of globalisation and further how does India a new state in an ancient society reconceptualise the paradigm of this debate The book will be of great interest to scholars and students of political science political theory history political philosophy and South Asian studies as well as informed general readers

Agrarian Evolution in a Multiform Structure Society V. G. Rastyannikov, 2024-12-06 India in the 1950s and 1960s with its diversity of economic structures and different levels of regional development offers a unique opportunity to explore a wide range of agrarian evolution within a multiform society Basing his study on an extensive survey of the existing literature as well as on fieldwork conducted in India the author analyses in his book Agrarian Evolution in a Multiform Structure Society first published in English in 1981 the roots of the Indian society and suggests future directions He argues that India like many Asian countries exhibits tendencies peculiar to an economy evolving on the basis of dependent capitalist development The author goes on to show how the state in seeking to ease the teething problems of development has assumed a decisive role expressed in terms of the nationalisation of certain sectors of private exploitative property and in the supersession of private interests by public ones The historically inevitable progress of Indian society is therefore a paradoxical one because its economy exists on the periphery of its system moulding structure world capitalism it has special problems reconciled only by state intervention this in turn makes the development of a capitalist society impossible The result is a unique study of a society which has assumed increasing importance in world affairs

The Polish Transformation Grzegorz Konat, 2024-03-18 The book takes an in depth look at a hitherto unexplored part of the oeuvre of prominent Polish economist and historian of economic thought Tadeusz Kowalik his thesis that the systemic transformation that took place in Poland in the late 1980s was a de facto epigonic bourgeois revolution Since Kowalik actually never extended his argument to support this thesis the aim of

the book is to answer the following question If some important reflections on the revolutionary character of the Polish transformation scattered throughout Kowalik s works were to be found would they together constitute a convincing justification for the thesis of the epigonic bourgeois revolution
