Basic Counseling Techniques Wayne Perry,2008-01-21 Wayne Perry has been a therapist for more than thirty years but he still hears the same thing from beginning counselors and therapists Yes I know what the theory says but what do I do with this particular client Drawing on his decades of experience training marriage and family therapists professional counselors and pastoral counselors he answers that question in the updated edition of his landmark book Basic Counseling Techniques He provides practical suggestions for setting up the therapy room using audiovisual recording equipment and conducting those first critical interviews You ll learn how to apply nine different sets of clinical tools select the appropriate tool for the appropriate clinical situation and improve how you carry out the clinical thinking process Each chapter concludes with a Living into the Lesson section that allows you to participate in experiential exercises to master what you ve learned While designed for counselors and therapists in the beginning of their careers even veterans in the field will find value in this updated edition

Environmental Management Tool Kit for Obsolete Pesticides - Volume 6 Food and Agriculture Organization of the United Nations,2020-01-23 Environmental Management Tool Kit Volume 6 is intended to provide practical methods to assist countries in the formulation of strategies for the management of pesticide contaminated land As risk reduction largely depends on the accuracy of site investigation and associated risk assessment this document is meant to be used in close

conjunction with EMTK Volume 5 the outputs of which are critical in the design of pesticide contaminated land environmental management plans The previous volumes of the FAO EMTK series Volumes 1 4 are designed to assist countries with the risk management of obsolete pesticide stocks From a wider perspective the approaches used to deal with obsolete stocks and contaminated land are similar For both contaminated land and obsolete stocks the first step requires a preliminary risk assessment to prioritize sites in terms of urgency for risk management and to estimate the absolute risk Due to the nature of contaminated land an additional series of assessment steps further described by EMTK5 are required to understand what is going on below ground and how this affects risk that are not required for obsolete stocks the risks for which can largely be understood from a single visit to each site Where the risk management of obsolete stocks and contaminated land differ is in the number and types of disposal options and risk reduction techniques required As risk management of contaminated land requires dealing with larger sources usually at lower concentrations and the escape of and exposure to contaminants in many different ways
