**Green Building Illustrated**  
Francis D. K. Ching, Ian M. Shapiro, 2020-11-19 FULLY ILLUSTRATED UPDATED GUIDE TO THE STRATEGIC DESIGN OF GREEN BUILDINGS

In the tradition of *Building Construction Illustrated*, Francis D. K. Ching and Ian M. Shapiro offer a fully illustrated guide to the theory and practice of sustainable design. This guide provides architects, designers, and builders in the green design professional community a framework and detailed strategies for designing substantively green buildings. With a focus on sustainable sites, approaching and reaching net zero energy, low and zero water usage, minimum impact materials, and superior indoor environmental quality, this guide explains why we need to build green, as well as green building theory and advancements in the industry. This Second Edition includes all new case studies featuring geographically diverse buildings with proven zero energy performance. Expanded coverage of zero energy building design, as well as zero water and zero waste buildings, practical guidance for the schematic design of high performance buildings, heating and hot water system selection, building envelope details, and integrating renewable energy. Advanced strategies such as the concept of shape efficiency and the optimal location for stairwells in buildings. Additional strategies for affordability in green design and construction. Updated references to the latest codes and standards. This Second Edition of *Green Building Illustrated* is an excellent resource for professionals, students, and those interested in the design and construction of sustainable buildings.

**The New Ecological Home** Daniel D. Chiras, 2004 Today a new generation of architects and builders is emerging intent on creating homes that meet human needs for shelter while causing only a fraction of the environmental impact of conventional housing. *The New Ecological Home* provides an overview of green building techniques, materials, products, and technologies that are either currently available or will be in the near future. Author Daniel Chiras provides a wealth of up-to-date practical information for home buyers, owner-builders, and anyone interested in building for a sustainable future.
