Technological Forecasting A Practical Approach:

Technological forecasting : a practical approach Marvin J. Cetron,1971 **Technological forecasting; a practical approach, with a foreword by R.C. Lenz, Jr** Marvin J. Cetron, *Technology Assessment* Tugrul U. Daim,2011

Understanding the technology dynamics is a required capability in today s technology driven industries This volume focuses on three areas technology assessment technology forecasting and technology diffusion It shows an introduction to different types of assessment methods and applications from different sectors including energy healthcare and communications technology forecasting and foresight and a review of conventional and emerging methods and the diffusion of technologies by exploring adoption of products and services from different sectors Back cover **Candidates and Priorities for Technology Assessments** ,1974 **Industrial Applications of Technological Forecasting** Marvin J. Cetron,Christine A. Ralph,1983 *Journal of the International Society for Technology Assessment* International Society for Technology Assessment,1976 **Hierarchical Decision Modeling** Tugrul U. Daim,2015-07-25 This volume developed in honor of Dr Dundar F Kocaoglu aims to demonstrate the applications of the Hierarchical Decision Model HDM in different sectors and its capacity in decision analysis It is comprised of essays from noted scholars academics and researchers of engineering and technology management around the world This book is organized into five parts Technology Policy Planning Strategic Technology Planning Technology Assessment Application Extensions and Methodology Extensions Dr Dundar F Kocaoglu is one of the pioneers of multiple decision models using hierarchies and creator of the HDM in decision analysis HDM is a mission oriented method for evaluation and or selection among alternatives A wide range of alternatives can be considered including but not limited to different technologies projects markets jobs products cities to live in houses to buy apartments to rent and schools to attend Dr Kocaoglu s approach has been adopted for decision problems in many industrial sectors including electronics research and development education government planning agriculture energy technology transfer semiconductor manufacturing and has influenced policy locally nationally and internationally Moreover his students developed advanced tools and software applications to further improve and enhance the robustness of the HDM approach Dr Kocaoglu has made many contributions to the field of Engineering and Technology Management During his tenure at Portland State University he founded the Engineering and Technology Management program where he served as Program Director and later Department Chair He also started the Portland International Conference on Management of Engineering and Technology PICMET which organizes an annual conference in international locations such as Korea Turkey South Africa Thailand and Japan His teaching has won awards and resulted in a strong sense of student loyalty among his students even decades later Through his academic work and research Dr Kocaoglu has strongly supported researchers of engineering management and has provided tremendous service to the field This volume recognizes and celebrates Dr Kocaoglu s profound contributions to the field and will serve as a resource for generations of researchers practitioners and students

Forecasting for Technologists and Engineers Brian C. Twiss,1992 This book is written for all technologists and engineers To those unfamiliar with forecasting it may appear a somewhat esoteric activity with little relevance to the everyday technical concerns of the reader This is not so The aim of this book is to show how forecasting can improve the quality of technical decision making Furthermore this can be accomplished without the use of highly sophisticated techniques which can only be applied by specialists The approaches described in this book can be easily understood and used by all its readers

A practical guide to opportunity assessment methods Peter Liao,Amy Witsil,2008-02-28 Based on the authors experience a gap is apparent between technology managers needs and opportunity assessment resources Many organizations need a tool for evaluating seed funding or small business investment opportunities but they lack a means for determining what options are available This research report describes several opportunity assessment methods and matches the methods to user types in public and private sector organizations in analyzing technical business and market information for investment and commercialization decisions Organizations that may benefit from this review share a common goal of seeking to strengthen the viability of a new technology venture or capitalizing on their investment in new technology These include venture capitalists who choose investments in early stage technology companies that will return the largest return on investment for their client investors angel investors placing their own money in pet projects public or quasi public new or small business funding agencies and academic and government research and development agencies The authors focus was to evaluate not only the availability of methods but also the associated analysis framework in order to understand which opportunity assessment methods are optimal in supporting various investment objectives and stakeholders This report should also provide individuals in the technology transfer and commercialization community with a succinct useful reference for identifying what methods are available to them and which methods work best in various situations
