## Technology Of Transition:

*The Technology of Transition* David A. Dyker, 1997 Seeks to answer the crucial question of how countries which have suffered in productivity levels and a complete loss of innovatory momentum over a period of 20-30 years can rediscover their dynamism A dynamic challenge to the prevailing belief of the standard shock therapy literature that believes that balanced budgets and stable prices are sufficient to cure the ills of economically stagnant societies Technology and Transition

Anthony Rimmington, 1992-11-13 This book aims to provide a detailed survey and analysis of the most important issues in biotechnology in the Soviet Union's successor states as they each attempt to make their own painful transitions to a market economy It examines both the impact of this branch of science on the economy as a whole and the management of biotechnology research and development R D as well as production Emphasis is placed on the alternative structures which have emerged during the transitional process Detailed information is also provided on biotechnology research projects joint ventures institutes and factories For the area specialist the book is rich in useful data and analysis while its structure facilitates its use as a handbook by business people in the West and scientists looking for specific information on biotechnology in the former USSR It will provide those with a more practical orientation with a realistic appraisal of
