ORWELL'S NEWSPEAK AND
ITS NAZI AND COMMUNIST
ANTECEDENTS

JOHN WESLEY YOUNG

Totalitarian Language

Uwe Klawitter

Totalitarian Language:

Totalitarian Language John Wesley Young,1987 *Totalitarian Language* John Wesley Young,1991 In this analysis of the language of totalitarianism John Wesley Young examines the manipulation of language by Nazi and Communist regimes Relating the language of totalitarian regimes to the language Newspeak in George Orwell s satirical novel 1984 Young addresses the similarities and differences between the real and fictional languages demonstrates the accuracy of Newspeak and explores the degree of control that language can exert over the thought and behaviour of a people **Morality and**

Language of Totalitarianism Andreas Buller,2023-09-05 The study asks what totalitarian regimes such as Bolshevism National Socialism and Putinism have in common All of these totalitarian systems sought to destroy the universal principles of human morality by replacing them with group class racial or traditional values The direct result of this substitution of values in history has been class terror the Holocaust and brutal violence against both one s own and other peoples The author argues that crimes against humanity are committed on the basis of group rather than universal morality **Legacies**

of Totalitarian Language in the Discourse Culture of the Post-Totalitarian Era Ernest Andrews,2011-05-19 This book is unique in its kind It is the first scholarly work to attempt a comprehensive and fairly detailed look into the lingering legacies of the communist totalitarian modes of thought and expression in the new discourse forms of the post totalitarian era The book gives also new and interesting insights into the ways the new presumably democratically minded political elites in post totalitarian Eastern Europe Russia and China manipulate language to serve their own political and economic agendas The book consists of ten discrete discussions nine case studies or chapters and an introduction Chapter 1 discusses patterns of continuity and change in the conceptual apparatus and linguistic habits of political science and sociology practiced in the Czech Republic before and after 1989 Chapter 2 analyzes lingering effects of communist propaganda language in the political discourse and behavior in post communist Poland Chapter 3 analyzes the legacy of Soviet semantics in post Soviet Moldovan politics through the prism of such politically contested words as democracy democratization and people Chapters 4 and 5 discuss the way in which communist patterns of thought and expression manifest themselves in the new political discourse in Romania and Bulgaria respectively Chapter 6 examines phenomena of change and continuity in the socio linguistic and socio political scene of post Soviet Latvia Chapter 7 analyzes the extent to which the language of the post communist Romanian media differs from the official language of the communist era Chapter 8 examines the evolution of Russian official discourse since the late eighties with a view of showing whether or not new phenomena in the evolution of post Soviet discourse represent new development or just a mutation of the value orientations of the old Soviet ideological apparatus Chapter 9 gives a detailed and lucid account of the evolution of both official and non official discourse in China since the end of the Mao era **Finnisch-Ugrische Mitteilungen Band 46** Cornelius Hasselblatt,Beáta

Bradatan, Serguei Oushakine, 2010-03-19 Despite its key role in the intellectual shaping of state socialism Communist ideas
are often dismissed as mere propaganda or as a rhetorical exercise aimed at advancing socialist intellectuals on their way to
power By drawing attention to unknown and unexplored areas trends and ways of thinking under socialism the volume
examines Eastern Europe and Russian histories of intellectual movements inspired negatively as well as positively by
Communist arguments and dogmas Through an interdisciplinary dialogue the collection demonstrates how various bodies of
theoretical knowledge philosophical social political aesthetic even theological were used not only to justify dominant political
views but also to frame oppositional and nonofficial discourses and practices The examination of the underlying structures of
Communism as an intellectual project provides convincing evidence for questioning a dominant approach that routinely
frames the post Communist intellectual development as a revival or at least as a return of the repressed intellectual
traditions As the book shows the logic of a radical break suggested by this approach is in contradiction with historical
evidence a significant number of philosophical theoretical and ideological debates in post Communist world are in fact the
logical continuation of intellectual conversations and confrontations initiated long before 1989 *Language and
Totalitarianism* Colin H. Good, 1991 *Totalitarian Speech* Michał Głowiński, 2014 Totalitarian Speech brings together a
range of texts on totalitarian manipulations of language The author analyzes various phenomena from the hateful rhetoric of
Nazi Germany to the obfuscating newspeak of communist Poland finding certain common characteristics Above all
totalitarian speech in its diverse manifestations imposes an all embracing worldview and an associated set of dichotomous
divisions from an omniscient and authoritative perspective This volume collects the work of over three decades including
essays written during the communist era and more recent pieces assessing the legacy of totalitarian ways of thinking in
contemporary Poland The Totalitarian Claim of the Gospels Dora Willson, 1939 The Theme of Totalitarianism in
"English" Fiction Uwe Klawitter, 1997 The chosen novels are analysed within their own fictional and ethical framework Their
unique historical contribution is assessed in the context of the developing academic and public debate about totalitarianism
The discussion of native British and American Canadian writers as well as Eastern European writers who came to write about
their first hand experiences in the English language leads to a comprehensive picture of Anglo American fiction s response to
the most important political phenomenon of our century BOOK JACKET Title Summary field provided by Blackwell North
