Touches Of Intimacy

Alec Fearon (pseud. [i.e. Alice M. Clerk.])

Touches Of Intimacy:

Nonverbal Behavior and Social Psychology Richard Heslin,2013-03-09 Facets of Eros F.J. Smith,E. Eng,2012-12-06 In an age which is supposedly experiencing a sexual revolution a volume of thoughtful essays on eros is not only not out of place but perhaps is a positive contribution to the understanding of contemporary man It was the conviction of the editors that the scientific view of sexuality as promoted in such valuable studies as those conducted by Masters and Johnson needed considerable supplement and perspective The perspective is here furnished by writers from both Europe and America authors from various fields such as philosophy psychology and even musicology all of whom are united in that their approach to the problem of eros is phenomenologically oriented At first it might well seem strange that musicology would have much to say about eros It is true musicology has been the science of music at least in intent Yet in a larger view of the discipline philosophical and aesthetic problems are also important to it and this particularly if we agree with Enzo Paci that our very culture depends on eros Surely musical culture as pointed out by Kierkegaard is the embodiment of what western civilization has known as sensuality and Mozart's Don Giovanni is its incarnation On the surface it is easier for us to grasp the work of the philosopher in this area and of course one expects the psychologist to deal with sexuality more explicitly than anyone else

Communications & Ethics for Bodywork Practitioners Patricia M Holland,Sandra K Anderson,2011-12-06 Develop the effective ethical and professional relationships and an honest and clear communication style that are the foundation of a successful bodywork practice This practical real world case based approach to professional practice focuses on the communications and ethics essential to success in the field **Studies in the Psychology of Sex: Sexual selection in man: 1. Touch. 2. Smell. 3. Hearing. 4. Vision** Havelock Ellis,1914 Studies in the Psychology of Sex: Sexual selection in man: I. Touch. II. Smell. III. Hearing. IV. Vision Havelock Ellis,1905 Arts & Decoration ,1923 **Arts & Decoration Combined with the Spur** ,1923 **Core Concepts in Human Sexuality** Bryan Strong,Christine DeVault,1996

Product Experience Hendrik N. J. Schifferstein,Paul Hekkert,2011-04-28 Product Experience brings together research that investigates how people experience products durable non durable or virtual In contrast to other books the present book takes a very broad possibly all inclusive perspective on how people experience products It thereby bridges gaps between several areas within psychology e.g perception cognition emotion and links these areas to more applied areas of science such as product design human computer interaction and marketing The field of product experience research will include some of the research from four areas Arts Ergonomics Technology and Marketing Traditionally each of these four fields seems to have a natural emphasis on the human ergonomics and marketing the product technology or the experience arts However to fully understand human product experience we need to use different approaches and we need to build bridges between these various fields of expertise Most comprehensive collection of psychological research behind product design and usability Consistently addresses the 3 components of human product experience the human the product and the experience
