Television Audience:

Television and Its Audience Patrick Barwise, Andrew Ehrenberg, 1988-11-24 This book by two leading experts takes a fresh look at the nature of television starting from an audience perspective It draws on over twenty years of research about the audience in the United States and Britain and about the many ways in which television is funded and organized around the world The overall picture which emerges is of a medium which is watched for several hours a day but usually at only a low level of involvement an audience which views mainly for relaxation but which actively chooses favourite programmes a flowering of new channels but with no fundamental change in what or how people watch programmes costing millions to produce but only a few pennies to view a wide range of programme types apparently similar to the range of print media but with nothing like the same degree of audience segmentation a global communication medium of dazzling scale speed and impact but which is slow at conveying complex information and perhaps less powerful than generally assumed The book is packed with information and insights yet is highly readable It is unique in relating so many of the issues raised by television to how we watch it There is also a highly regarded appendix on advertising as well as technical notes a glossary and references for further reading

Desperately Seeking the Audience Ien Ang, 2006-06-28 Millions of people all over the world are avid members of the television audience Yet despite the central place television occupies in contemporary culture our understanding of its complex and dynamic role in everyday life remains surprisingly limited Focusing on the television audience Ien Ang asks why we understand so little about its nature and argues that our ignorance arises directly out of the biases inherent in prevailing official knowledge about it She sets out to deconstruct the assumptions of this official knowledge by exploring the territory where it is mainly produced the television institutions Ang draws on Foucault's theory of power knowledge to scrutinize television's desperate search for the audience and to identify differences and similarities in the approaches of American commercial television and European public service television to their audiences She looks carefully at recent developments in the field of ratings research in particular the controversial introduction of the people meter as an instrument for measuring the television audience By defining the limits and limitations of these institutional procedures of knowledge production Ien Ang opens up new avenues for understanding television audiences Her ethnographic perspective on the television audience gives new insights into our television culture with the audience seen not as an object to be controlled but as an active social subject engaging with television in a variety of cultural and creative ways

Television in Black-and-white America Alan Nadel,2005 La couverture indique Alan Nadel s new book reminds us that most of the images on early TV were decidedly Caucasian and directed at predominantly white audiences Television did not invent whiteness for America but it did reinforce it as the norm particularly during the Cold War years Nadel now shows just how instrumental it was in constructing a narrow conservative and very white vision of America During this era prime time TV was dominated by adult Westerns with heroes like The Rebel s Johnny Yuma reincarnating Southern values and Bonanza s Cartwright family reinforcing the notion of white patriarchy programs that Nadel shows bristled with Cold War messages even as they spoke to the nation s mythology America had become visually reconfigured as a vast Ponderosa crisscrossed by concrete highways designed to carry suburban white drivers beyond the moral challenge of racism racial poverty and increasingly vocal civil rights demands

Master of the Ceremonies Ric Birch,2004-09-01 How would it feel to be the creative mastermind behind some of the world s greatest public spectaculars No one will forget the beauty of Barcelona s archer lighting the Olympic flame with a burning arrow or the sheer drama of Cathy Freeman igniting the Olympic torch in Sydney But what about the unseen and unheard about dramas behind the openings Ric Birch knows intimately the highs and lows of producing and directing many of the world s most watched and acclaimed ceremonies The success of Ric s production at the 1982 Brisbane Commonwealth Games led to the opportunity to work on the opening and closing ceremonies of the Los Angeles Olympic Games From there Ric s path brought him back to Australia for the six month long World Expo 88 and then to the Singapore Silver Jubilee celebrations the ceremonies for the 1992 Barcelona Olympic Games and of course the magnificent ceremonies of the 2000 Sydney Olympics amongst many other events stage shows and television productions For the first time Ric Birch reveals some of the skulduggery behind the ceremonies He writes of his personal and professional life and of the effects they have on each other Ric also describes the years of creativity and

ruthlessness that precedes each event with humour amazing detail and with huge affection and respect for his teams This entertaining and fascinating memoir reveals the guts determination and confidence of the master of the ceremonies Ric Birch
