## Topaz Island:

*Borderwaters* Brian Russell Roberts, 2021-04-05 Conventional narratives describe the United States as a continental country bordered by Canada and Mexico Yet since the late twentieth century the United States has claimed more water space than land space and more water space than perhaps any other country in the world This watery version of the United States borders some twenty one countries particularly in the archipelagoes of the Pacific and the Caribbean In *Borderwaters* Brian Russell Roberts dispels continental national mythologies to advance an alternative image of the United States as an archipelagic nation Drawing on literature visual art and other expressive forms that range from novels by Mark Twain and Zora Neale Hurston to Indigenous testimonies against nuclear testing and Miguel Covarrubias's visual representations of Indonesia and the Caribbean Roberts remaps both the fundamentals of US geography and the foundations of how we discuss US culture *The Keystone*, 1929 **The Commerce and Navigation of the Ancients in the Indian Ocean** William

*The Magic and Science of Jewels and Stones* Isidore Kozminsky, 1922 In this timeless masterpiece Isidore Kozminsky a renowned author in the field of Jewish occultism and esotericism reveals the hidden secrets of gemstones semi precious stones and ordinary stones Kozminsky skillfully navigates the philosophy of sympathy and antipathy found throughout nature unveiling the interconnectedness of stone to stone and person to person As a member of a family of jewelers and associated with the Hermetic Order of the Golden Dawn Kozminsky was perfectly positioned to synthesize scientific data ancient folklore and the occult and beneficial use of stones Unlike more modern stone guides that limit themselves to the psychic and physical aspects of lithotherapy this book provides a much more comprehensive and holistic understanding of the subject Special emphasis is placed on the connection between the various gemstones and semi precious stones discussed and the signs of the zodiac The author offers a profound philosophy of lucky stones planetary gems and the mystical stones of power which form an integral part of talismanic magic Unique to this book are the inclusion of magical sigils and invocation formulas providing readers with the means to establish contact with the stone spirits presented as an embedded grimoire Abbey's Books *The Periplus of the Erythrean Sea* William Vincent, 1800 *Mystic Gems* Harriet Keith Fobes, 1924
