Woodrow Wilson

Topical French:

Syntactic Change in French Sam Wolfe, 2021-12-23 This book provides the most comprehensive and detailed formal account to date of the evolution of French syntax. It makes use of the latest formal syntactic tools and combines careful textual analysis with a detailed synthesis of the research literature to provide a novel analysis of the major syntactic developments in the history of French. The empirical scope of the volume is exceptionally broad and includes discussion of syntactic variation and change in Latin Old Middle Renaissance and Classical French and standard and non standard varieties of Modern French. Following an introduction to the general trends in grammatical change from Latin to French Sam Wolfe explores a wide range of phenomena including the left periphery subject positions and null subjects verb movement object placement negation and the makeup of the nominal expression. The book concludes with a comparative analysis of how French has come to develop the unique typological profile it has within Romance today. The volume will thus be an indispensable tool for researchers and students in French and comparative Romance linguistics as well as for readers interested in grammatical theory and historical linguistics more broadly.

The Autobiography of a Teacher of French John Squair, 1928

Onstage Violence in Sixteenth-Century French Tragedy Michael Meere, 2021-10-21 The performance of violence on the stage has played an integral role in French tragedy since its inception. *Onstage Violence in Sixteenth Century French Tragedy* is the first book to tell this story. It traces and examines the ethical and poetic stakes of violence as playwrights were experimenting with the newly discovered genre during decades of religious and civil war c 1550-1598. The study begins with an overview of the origins of French vernacular tragedy and the complex relationships between violence performance ethics and poetics. The volume focuses on specific plays and analyzes biblical mythological historical and politically topical tragedies including the stories of Cain and Abel David and Goliath Medea the Sultan Sleyman the Magnificent the Roman general Regulus and the assassination of the Duke of Guise in 1588 to show how the multifarious uses of violence on stage shed light on a range of pressing issues during that turbulent time such as religion gender politics and militantism.

Books and Readers, 1588-1590 Betty Chandler Hunt, 1991 *Imagining the popular in contemporary French culture* Diana Holmes, David Looseley, 2017-10-03 This groundbreaking book is about what popular culture means in France and how the term's shifting meanings have been negotiated and contested. It represents the first theoretically informed study of the way that popular culture is lived imagined fought over and negotiated in modern and contemporary France. It covers a wide range of overarching concerns: the roles of state policy the market political ideologies changing social contexts and new technologies in the construction of the popular. But it also provides a set of specific case studies showing how popular songs stories films TV programmes and language styles have become indispensable elements of culture in France. Deploying yet also rethinking a Cultural Studies approach to the popular the book therefore challenges dominant views of what French culture really means today.

Semantics - Sentence and Information Structure Paul Portner, Claudia

Maienborn, Klaus von Heusinger, 2019-02-19 Read this book to get a deeper understanding of a wide range of semantics research on complex sentences and meaning in discourse These in depth articles from leading names in their fields cover the core concepts of sentential semantics such as tense modality conditionality propositional attitudes scope negation and coordination The highly cited material covers questions imperatives copular clauses and existential sentences It also includes essential research on sentence types and explains central concepts in the theory of information structure and discourse structure such as topics cohesion and coherence accessibility and discourse particles **Semantics.
