The Minimal Self Rupert Glasgow,2017-06-13 Self is a term that is much used but often poorly understood or over hastily dismissed In The Minimal Self R D V Glasgow seeks to unearth the underlying nature of selfhood Glasgow s approach is based upon the notion of intrinsic reflexivity which manifests itself in three fundamental forms self maintenance self reproduction and self containment Through a conceptual analysis of selfhood Glasgow aims to ascertain what distinguishes full forms of minimal selfhood from entities such as genes and viruses that are merely selfish or self like The idea is to establish the logical prerequisites for the transition from a world bereft of selfhood to one populated by selves like us Minimal selfhood thus provides a bridge linking philosophy biology and other disciplines that have previously failed to coincide in their understanding of what a self is

The Professional Subroto

Bagchi,2011-06-30 A manifesto on what it takes to be a true professional in the modern world By common definition a professional is anyone who possesses the skills and knowledge necessary for a career whether as a surgeon a software engineer or a plumber But according to Subroto Bagchi our increasingly global marketplace demands more In a world where the foolish selfish and unethical decisions of a few have affected the lives of millions The Professional urges readers to act responsibly and reexamine business as usual By exploring a variety of professional dilemmas across many industries Bagchi defines the qualities of true professionals and the attributes that separate them from the merely competent These include Suffer no false attractions It s always tempting to take the path of least resistance but true professionals can separate the genuine from the phony Know when to say no True professionals are not afraid to say no to things that are not worth their time their energy or their creativity Take the long view True professionals understand that every action decision and relationship no matter how small can have a lasting impact
