Popular Science, 1983-02 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better

Sounds Interesting David Darling, David J. Darling, 1991 Demonstrates the principles of sound and the science of acoustics through a variety of experiments

Newsweek, 2003

To Feel the Music Neil Young, Phil Baker, 2019-09-10 Neil Young took on the music industry so that fans could hear his music all music the way it was meant to be heard Today most of the music we hear is compressed to a fraction of its original sound while analog masterpieces are turning to dust in record company vaults As these recordings disappear music fans aren't just losing a collection of notes We're losing spaciousness breadth of the sound field and the ability to hear and feel a ping of a triangle or a pluck of a guitar string each with its own resonance and harmonics that slowly trail off into silence The result is music that is robbed of its original quality muddy and flat in sound compared to the rich warm sound artists hear in the studio It doesn't have to be this way but the record and technology companies have incorrectly assumed that most listeners are satisfied with these low quality tracks Neil Young is challenging the assault on audio quality and working to free music lovers from the flat and lifeless status quo To Feel the Music is the true story of his quest to bring high quality audio back to music lovers the most important undertaking of his career It's an unprecedented look inside the successes and setbacks of creating the Pono player the fights and negotiations with record companies to preserve masterpieces for the future and Neil's unrelenting determination to make musical art available to everyone It's a story that shows how much more there is to music than meets the ear Neil's efforts to bring quality audio to his fans garnered media attention when his Kickstarter campaign for his Pono player a revolutionary music player that would combine the highest quality possible with the portability simplicity and affordability modern listeners crave became the third most successful Kickstarter campaign in the website's history It had raised more than 6M in pledges in 40 days Encouraged by the enthusiastic response Neil still had a long road ahead and his Pono music player would not have the commercial success he'd imagined But he remained committed to his mission and faced with the rise of streaming services that used even lower quality audio he was determined to rise to the challenge An eye-opening read for all fans of Neil Young and all fans of great music as well as readers interested in going behind the scenes of product creation To Feel the Music has an inspiring story at its heart One determined artist with a groundbreaking vision and the absolute refusal to give up despite setbacks naysayers and skeptics
