**Free and Inexpensive Learning Materials**, 1976      **Exploring African approaches to international law: Essays in honour of Kéba Mbaye** Frans Viljoen, Humphrey Sipalla, Foluso Adegalu, 2022-10-04 It is unfortunate that the idea that Africa contributes to international law and has always done so remains in 2022 largely a side note an auxiliary approach rather than something widely accepted and deeply entrenched It is cause for pause that this is also true in Africa itself Exploring African approaches to international law Essays in honour of K ba Mbaye is a volume of essays that aims to contribute to a larger effort of imagining what possible approaches to international law Africa has adopted in the decades since the 1960s It also recognises the legacy of the great Senegalese jurist K ba Mbaye Edited by Frans Viljoen Humphrey Sipalla and Foluso Adegalu the volume is divided into five broad thematic parts and comprises eleven chapters It covers the following themes K ba Mbaye in African approaches to international law international legal theory international human rights law international environmental and criminal law and teaching of international law This publication finds its origins in the 2017 Roundtable on African approaches to international law held at the Centre for Human Rights University of Pretoria The explorations at the Roundtable on the concept of an African approach to international law were taken further at the K ba Mbaye Conference on African approaches to international law held at the Senate Hall University of Pretoria in December 2018 This conference brought together around 80 students academics and members of civil society to address the many questions left unanswered by the death of Judge Mbaye arguably Africa s greatest international law jurist of his generation It provided a forum to continue discussions on African approaches to international human rights law building on but rethinking and vernacularising the Third World Approaches to International Law TWAAIL approach The contributions to this publication flow from papers presented at the conference However the reflections in the book extend beyond K ba Mbaye as central figure The result is a broad treatment of various aspects of African approaches to international law by thirteen authors and co authors covering a wide range of generational geographic and thematic backgrounds and perspectives      **Apostolic Letters of Faith, Hope, and Love** Bruce M. Metzger, 2006-10-15 Professor Metzger has been a leader in New Testament studies for the past fifty years through his teaching his publications his text critical work and his translation work This volume brings his deep insight to three key epistles focusing on three fundamental Christian virtues      *Ephesians* Harold W. Hoehner, 2002-12-01 Harold Hoehner has taught biblical exegesis to thousands of students over the years He now brings that experience to bear on this important work He begins with a helpful introduction to the letter of Ephesians in which he addresses issues of authorship structure and genre historical setting purpose and theology At the end of the introduction the author includes a detailed bibliography for further reading Hoehner then delves into the text of Ephesians verse by verse offering the Greek text English translation and detailed commentary He interacts extensively with the latest scholarship and provides a fair and thorough discussion of every disputed point in the book Pastors students and scholars looking for a

comprehensive treatment on Ephesians will be interested in this commentary Hoehner's interaction with the latest scholarship combined with his detailed exegesis will make this new commentary the only resource they will need to consult
