Spreadsheet Modeling and Decision Analysis Cliff T. Ragsdale,1995 Spreadsheet Modeling & Decision Analysis Cliff T. Ragsdale,2006 *An Introduction to Optimization with Applications in Machine Learning and Data Analytics* Jeffrey Paul Wheeler,2023-12-07 The primary goal of this text is a practical one Equipping students with enough knowledge and creating an independent research platform the author strives to prepare students for professional careers Providing students with a marketable skill set requires topics from many areas of optimization The initial goal of this text is to develop a marketable skill set for mathematics majors as well as for students of engineering computer science economics statistics and business Optimization reaches into many different fields This text provides a balance where one is needed Mathematics optimization books are often too heavy on theory without enough applications texts aimed at business students are often strong on applications but weak on math The book represents an attempt at overcoming this imbalance for all students taking such a course The book contains many practical applications but also explains the mathematics behind the techniques including stating definitions and proving theorems Optimization techniques are at the heart of the first spam filters are used in self driving cars play a great role in machine learning and can be used in such places as determining a batting order in a Major League Baseball game Additionally optimization has seemingly limitless other applications in business and industry In short knowledge of this subject offers an individual both a very marketable skill set for a wealth of jobs as well as useful tools for research in many academic disciplines Many of the problems rely on using a computer Microsoft s Excel is most often used as this is common in business but Python and other languages are considered The consideration of other programming languages permits experienced mathematics and engineering students to use MATLAB or Mathematica and the computer

science students to write their own programs in Java or Python Spreadsheet Modeling & Decision Analysis Cliff T. Ragsdale,2004 Quantitative Methods for Business C. Donald J. Waters,Donald Waters,2011 Taking a non threatening non theoretical approach to a subject students often find difficult this book avoids rigorous mathematics and concentrates on applying quantitative ideas to the work situation **Optimization Modelling Using R** Timothy R. Anderson,2022-07-05 This book covers using R for doing optimization a key area of operations research which has been applied to virtually every industry The focus is on linear and mixed integer optimization It uses an algebraic modeling approach for creating formulations that pairs naturally with an algebraic implementation in R With the rapid rise of interest in data analytics a data analytics platform is key Working technology and business professionals need an awareness of the tools and language of data analysis R reduces the barrier to entry for people to start using data analytics tools Philosophically the book emphasizes creating formulations before going into implementation Algebraic representation allows for clear understanding and generalization of large applications and writing formulations is necessary to explain and convey the modeling decisions made Appendix A introduces R Mathematics is used at the level of subscripts and summations Refreshers are provided in Appendix B This book Provides and explains code so examples are relatively clear and self contained Emphasizes creating algebraic formulations before implementing Focuses on application rather than algorithmic details Embodies the philosophy of reproducible research Uses open source tools to ensure access to powerful optimization tools Promotes open source all materials are available on the author s github repository Demonstrates common debugging practices with a troubleshooting emphasis specific to optimization modeling using R Provides code readers can adapt to their own applications This book can be used for graduate and undergraduate courses for students without a background in optimization and with varying mathematical backgrounds **Spreadsheet Modeling and Decision Analysis** Cliff T.
