

WHAT IS GEOGRAPHY?

Geography is the study of places and the relationships between people and their environments.

A **geographer** is a physical scientist, social scientist or humanist whose area of study is geography. They explore the physical properties of Earth and the human behaviour across it.

There are **three types of geography**: physical geography (*the effects it has on people and the environment*), human geography (*concerned with people*) and environmental geography (*how people behaviour can affect the environment*).
