The Dancing Healers:

The Dancing Healers Carl A. Hammerschlag, 1989-09-13 This fascinating account of a Yale trained psychiatrist's twenty year experience with Native American healing interweaves autobiography with stories of the Native Americans who challenged his medical school assumptions about their methods While working as a family physician in a Native American hospital in the Southwest Carl Hammerschlag was introduced to a patient named Santiago a Pueblo priest and clan chief who asked him where he had learned how to heal Hammerschlag responded almost by rote rattling off his medical education internship and certification The old man replied Do you know how to dance To humor Santiago Hammerschlag shuffled his feet at the priest's bedside Despite his condition Santiago got up and demonstrated the proper steps You must be able to dance if you are to heal people he admonished the young doctor I can teach you my steps but you will have to hear your own music Hammerschlag synthesizes his Jewish heritage with his experience with Native Americans to produce a practice open to all methods of healing He discovers the wisdom of the Pueblo priest's question to his Western doctor Do you know how to dance

The Changing Landscape of Education in Africa David Johnson, 2008-05-12 It is over 40 years since Coombs 1967 first drew attention to the World Education Crisis and specifically problems in the educational systems of countries in the developing world Today many of these problems remain and are most visible in the educational systems of countries in sub Saharan Africa A large number of children remain out of school and for those who do enrol less than half complete the primary education cycle More worrying is the fact that those who do complete primary schooling leave with unacceptably low levels of knowledge and skills The problems of access to education and the quality of learning opportunities and learning outcomes are unevenly spread between rural and urban areas better and worse off constituencies and between boys and girls This raises questions about the nature of the state and its commitment to equality and equity for all The chapters in this volume argue that quality equity and democratic accountability are inseparable objectives in the quest to strengthen and improve educational systems in the developing world Between them they highlight the specific problems of quality equity and democratic accountability in a number of African educational systems and provide useful insights into ongoing work by national governments and international donor agencies to remedy these shortcomings
