The Day the Universe Exploded My Head Allan Wolf, 2019-03-05 Hang on tight for a raucous bounce through the solar system and back propelled by funny fanciful factually sound poems and exuberant illustrations The universe poured into me My brain was overloaded It smoked and glowed red hot And then it actually exploded Ever wonder what the sun has to say about being the closest star to Earth Or what Pluto

has gotten up to since being demoted to a dwarf planet Or where rocket ships go when they retire Listen closely because maybe just maybe your head will explode too With poetry that is equal parts accurate and entertaining and illustrations that are positively out of this world this book will enthrall amateur stargazers and budding astrophysicists as it reveals many of the wonders our universe holds Space travelers in search of more information will find notes about the poems a glossary and a list of resources at the end *The (Almost) Complete Hitchhiker in Time* Shawn M. Tomlinson,2015-11-07 The Hitchhiker in Time columns were the single most popular things ever written by Shawn M Tomlinson which honestly doesn't say all that much All together they appeared in fewer than 10 newspapers between 1988 and 2001 Well multiple copies of those newspapers of course The highest circulation was approximately 40 000 so not exactly Bob Greene levels Still Tomlinson had a following with these columns and to a great extent they hold up well today Either that or Tomlinson would like to think so Many of these columns appeared in chapbooks over the years but this is the first full collection of them to be in print
