The Death Of Literature:

The Death of Literature Alvin B. Kernan, 1990-01-01 Looks at political and critical attacks on literature suggests that traditional literature is no longer useful to our technological society and argues that a new concept of literature is needed

After the Death of Literature Richard B. Schwartz, 1997 Schwartz speculates that Johnson who revered hard facts a wide cultural base and common sense would have exhibited scant patience with the heavily academic approaches currently favored in the study of literature He considers it probable that the combatants in the early struggles of the culture wars are losing energy and that in the wake of Alvin Kernan's declaration of the death of literature new battlegrounds are developing Ironically admiring the orchestration and staging of battles old and new superb he calls them he characterizes the entire culture war as a battle between straw men carefully constructed by the combatants to sustain a pattern of polarization that could be exploited to provide continuing professional advancement *The Death of Literature [sound Recording]* Kernan,

Literature and the Remains of the Death Penalty Peggy Kamuf, 2018-10-16 Why have generations of philosophers failed or refused to articulate a rigorous challenge to the death penalty when literature has been rife with death penalty abolitionism for centuries In this book Peggy Kamuf explores why any properly philosophical critique of capital punishment in the West must confront the literary as that which exceeds the logical demands of philosophy Jacques Derrida has written that the modern history of the institution named literature in Europe over the last three or four centuries is contemporary with and indissociable from a contestation of the death penalty How Kamuf asks does literature contest the death penalty today particularly in the United States where it remains the last of its kind in a Western nation that professes to be a democracy What resources do fiction narrative and poetic language supply in the age of the remains of the death penalty Following a lucid account of Derrida's approach to the death penalty Kamuf pursues this question across several literary texts In reading Orwell's story *A Hanging* Kamuf explores the relation between literary narration and the role of the witness concluding that such a witness needs the seal of literary language in order to account for the secret of the death penalty The next chapter turns to the American scene with Robert Coover's 1977 novel *The Public Burning* which restages the executions of Julius and Ethel Rosenberg as an outlandish public spectacle in Times Square Because this fictional device reverses the drive toward secrecy that beginning in the mid nineteenth century put an end to public executions in the West Kamuf reads the novel in a tension with the current tendency in the U S to shore up and protect remaining death penalty practices through increasingly pervasive secrecy measures A reading of Norman Mailer's 1979 novel *The Executioner's Song* shows the breakdown of any firm distinction between suicide and capital execution and explores the essential affinity between traditional narrative structure which is plotted from the end and the plot of a death penalty Final readings of Kafka Derrida and Baudelaire consider the relation between literature and law showing how performative literary language can

play the law A brief conclusion titled Postmortem reflects on the condition of literature as that which survives the death penalty A major contribution to the field of law and society this book makes the case for literature as a space for contesting the death penalty a case that scholars and activists working across a range of traditions will need to confront The Death Penalty in Dickens and Derrida Jeremy Tambling,2023-06-29 In the nineteenth century Charles Dickens backed the cause of abolition of the death penalty and wrote comprehensively about it in public letters and in his novels At the end of the twentieth century Jacques Derrida ran two years of seminars on the subject which were published posthumously What the novelist and the philosopher of deconstruction discussed independently this book brings into comparison Tambling examines crime and punishment in Dickens s novels Barnaby Rudge A Tale of Two Cities Oliver Twist and Bleak House and explores those who influenced Dickens s work including Hogarth Fielding Godwin and Edgar Allen Poe This book also looks at those who influenced Derrida Freud Nietzsche Foucault and Blanchot and considers Derrida s study on terrorism and the USA as the only major democracy adhering to the death penalty A comprehensive study of punishment in Dickens and furthering Derrida s insights by commenting on Shakespeare and blood revenge the French Revolution and the enduring power of violence and its fascination this book is a major contribution to literary criticism on Dickens and Derrida Those interested in literature criminology law gender and psychoanalysis will find it an essential intervention in a topic still rousing intense argument *The Ridpath Library of Universal Literature* John Clark Ridpath,1899 *Living in Death* T.D. Peter,2013-07-21 The uncertainty of ones life and the inevitability of death is a dilemma that has tormented the human mind in all ages One way of resolving the conundrum has been to imagine if not firmly believe that the individual self is immortal and deathless notwithstanding the fact that the physical body must perish If nothing it weans one away from the fear of death towards an earnest hope in a blissful afterlife *Living in Death* is a scholarly critique on the death poetry of Emily Dickinson and T S Eliot By deftly comparing their styles diction and motifs Dr T D Peter unravels the beauty of contemplating and courting the compelling presence of death as an unshakeable ontological reality The author looks through the mirror of the death poetry of two signature poets of the nineteenth and twentieth centuries the former an inimitable and indwelling poetic genius who defies classification and transcends time and trends the latter a trail blazing and celebrated scion of modern classical poetry who impresses with his erudition and edification imagism and symbolism He finds more by way of contrast than similarity in their strikingly opposite life lines and no less to their varying allegiance to faith and reason religion and spirituality *Catalogue - Harvard University* Harvard University,1896 **Catalog of the Officers and Students of the University in Cambridge** Harvard University,1900 Bataille Fred Botting,Scott Wilson,2001-04-04 One of the most profound thinkers of the twentieth century Georges Bataille has only recently come to prominence in the Anglophone academy partly through the influence of post structuralism Once seen as no more than a philosopher of eroticism and a writer of avant garde pornography Bataille is emerging as an absolutely central figure to discussions of culture economy subjectivity and difference

Bataille is the first volume of its kind to offer lucid diverse and relevant examples of the ways of reading literary and cultural texts in the light of Bataille's work. The essays explore the significance of Bataillean notions like heterology, general economy, transgression, and eroticism through detailed readings of Shakespearean, Elizabethan, and Jacobean literature, in analyses of Gothic and postmodern fiction, and in critiques of popular culture, rock music, and Hollywood movies. In order to make Bataillean notions more comprehensible to contemporary readers, his concepts are situated in relation to the ideas of renowned critical and cultural theorists like Baudrillard, Deleuze, Derrida, Kristeva, Lacan, as well as Hegel, Freud, Nietzsche, and Marx. Here the influence of Bataille is outlined in intellectual and historical terms, and the significance of his work can be seen for both contemporary and futural modes of cultural analysis.

First published in 1993, Routledge is an imprint of Taylor & Francis, an informal company. **Imagining the American Death Penalty** Birte Christ, 2025-04-29. *Imagining the American Death Penalty* traces the US American cultural imaginary of capital punishment through popular visual representations from the 1890s to the twenty-first century. The book focuses on three generic and historical clusters of representations: early film from the 1890s through *Intolerance* (1916), crime film noir of the 1950s and 1960s, and legal TV series from the 1990s through the early 2000s. The book makes two central arguments. First, it demonstrates that an increased concern with the death penalty in popular media does not mean that these texts promote an abolitionist agenda; their cultural work is ambiguous at best. This ambiguity is always contingent upon both the affordances of the particular genre and medium in question and on political/legal discursive context. The book explores both in detail. Early film is enchanted with its own representational possibilities due to the progress of technology and in analogy with the progress in execution technique, specifically the electric chair. In film noir, genre conventions and the legal back-and-forth before and after Furman predicate ambiguity. In legal TV series, the genre's ensemble casts and its focus on conversational exchange invite open debate. The second argument is that popular visual representations consistently whitewash the death penalty. The book demonstrates that this is the case because the most common narrative around executions in film and TV is to cast the condemned man as a hero who defies the violence of the state, gains dignity by accepting his fate and faults, and in some ways triumphs over death. The American imaginary until very recently did or could not imagine Black men to possess that measure of agency that it attributed to its white heroes.
